**SPONSOR PARTY DEC. 21
AT OAK TERRACE SCHOOL**

Highwood Civic Improvement
Association Erect Christmas
Tree; Give Baskets

A children's Christmas party, sponsored by the Highwood Civic Improvement association, was held on Wednesday evening, Dec. 21 in the auditorium of the Oak Terrace school. About a thousand people were present. After listening to a wonderful program presented by Principal Thomas, teachers and children of the Oak Terrace school, and a short talk by Mr. Fromelt, the president of the association, Santa Claus appeared, and as the hundreds of children marched past, each received a present from him. A total of six hundred and seventy children received presents. The association wishes to thank the school board and the teaching staff of the Oak Terrace and St. James' parish schools, for their splendid co-operation in marking this community Christmas the greatest success in the history of our city.

The association has erected a beautifully lighted Christmas tree in the North Shore grounds at Highwood avenue, which adds much to the appearance of our city. They also distributed twenty-four Christmas baskets to the needy families of Highwood. This is to be an annual event in the future.

Besides the husband there survives one son and two daughters, Charles Pierson of Detroit, and Mesdames Mabel Burke and Esther Fleming. Mrs. Pierson had many warm friends whose sorrow at her death is profound, and the relatives have the deep sympathy of all.

The funeral of Mr. Herbert A. Parkyn, whose death occurred last week, was held Saturday at 2:30 o'clock, at the H. M. Prior Co. chapel, and the remains were taken to Montreal, Can., for burial. Mr. Parkyn was born in Montreal.

**MOOSE CHRISTMAS
PARTY BIG SUCCESS**

The Moose Christmas party for the children, given Monday evening in the Odd Fellows hall was a huge success, with large attendance, a big Christmas tree, Santa Claus, and all the trimmings. The children certainly enjoyed it to the limit and those who gave their time and efforts to arrange the affair for the youngsters were more than repaid by the joy which they were able to give the boys and girls. Each child received a gift and candy and oranges. Dr. Buehler of Glencoe spoke appropriately, and Miss Katherine Zimmer and Mr. Holland sang solos beautifully. The party was much enjoyed by both the children and adults present.

The Moose are arranging for a big masquerade party to be given January 23, to which all members and their friends are invited.

**PROF. A. E. MORGAN
SPEAKER AT P. T. A.**

(Continued from page 1)

new appraisal of the chief issues of life, and of personal qualities which best will meet those issues; and then seeks to give that emphasis to the development of each quality which it deserves in relation to all other qualities. The Antioch purpose is to bring about a balanced development of character, intelligence, and power. He is best fitted for modern life who holds his beliefs as tentative, and subject to continual revision. . . . In the relentless competition of custom and tradition for lodgment in men's minds, education is the great selective agency. If it does its work well, superstition, prejudice, bad taste, vulgarity, and indulgence are crowded out, and intelligence, integrity, critical inquiry, good will, self-control, and a sense of beauty find room. Only as education makes wise selection can the best values survive. . . . We can leave our children no safer or better heritage than a society in which there is fair play, in which worth can find its reward without the need of breaking down vested barriers."

Prof. Morgan, before becoming an educator of distinction had won recognition in his profession of civil engineer. In this field he is best known for his achievements in controlling the Miami river so that there has been no recurrence of the devastating flood which the city of Dayton and the surrounding territory suffered in 1913. He has, in fact, planned and superintended the construction of seventy-five water control projects, and is at the present time president of the Morgan Engineering company as well as a member of the American Society of Civil Engineers.

His interest in definite educational projects became aroused through his very intimate association with the establishment and development in Dayton of the Moraine Park school, whose director, Dr. Slutz, has been heard with interest several times in this community. It was this phase of his work which brought him to the attention of the trustees of Antioch college and influenced them to offer him the presidency.

The man who is to speak on "What Should College Do for Life" is, therefore, no mere idealistic theorist. He is a practical engineer, a successful business man, and also an educator of purpose and achievement. No intelligent person who seeks to be well-informed can afford to miss this lecture. It will be given in the auditorium of the Deerfield-Shields high school on Thursday evening, Jan. 5, under the auspices of the Parent-Teacher association of the high school.

**NO TRACE FOUND OF
TWO GLENCOE HUNTERS**

At last reports last night no trace had been discovered of Alexander Maitland, 25, and his brother-in-law, Robert Case, 14, who left the home of Case's step-father, E. F. Smith, of Glencoe, early Monday morning to hunt ducks along the lake. It is believed they went out on the lake in a boat and were either drowned in a squall or were swept out to sea and perished. Airplanes, tugs, rowboats and hundreds of Boy Scouts together with the police of the north shore towns have been engaged in the search without avail since Monday.

Children used to wash their feet and put on their shoes and stockings preparatory to going to school in September. Now days they have their towels changed out. — Atchison Globe.
