PUBLIC LIBRARY

To Make Your Reading Count Read with a purpose. Read at the same time for enjoyment and recreation. Spend a few minutes a day enlarging your acquaintance with the great minds of all times. A new service is offered by your library through the co-operation of the American Library association. Courses for "Reading with a purpose" have been prepared by nationally known specialists on many subjects. Each is a brief introduction to its subject, interestingly written, authoritative, easy to read. Each recommends a few books which will give a better understanding and appreciation of the subject. The following courses have been added to the library since the list published a week ago: Frontiers of Knowledge, by Jesse Lee Bennett. Ears to Hear; a guide for music lovers, by Daniel Gregory Mason. The Physical Sciences, by E. E. Slosson. Our Children, by M. V. O'Shea. The Life of Christ, by Rufus M. Jones. Appreciation of Sculpture, by Lordado Taft. Poetry of Our Own Times, by Marguerite Wilkinson. The United States in Recent Times by Frederic L. Paxson. Pleasure from Pictures, by Henry Turner Bailey. American Education, by William F. Russell. Americans from Abroad, by John Palmer Gavit. The French Revolution as Told in Fiction, by William S. Davis. The Practice of Politics, by Raymond Moley. There probably has been no branch of public service that has grown more rapidly in the past quarter of a century than has the public library. This is partly due to the changed theory of library service. Formerly there was too much of the idea that the library was merely a collection of books and the librarian, the keeper of books. Today the idea is that the librarian is one who distributes books and makes the library the accepted center of a community's intellectual life. The public library, with capable librarians, may be made a most potent force in promoting all kinds of educational activity in a state. It supplements every form of education, whether public or private.—School Life.

HOUSE LIGHTING IN DIFFERENT MONTHS

Artificial illumination is required for nearly three times as many hours per day during January as during June, statisticians for the electric light and power industry have computed. They point out that the shorter days and the resulting increased use of electric lights cause a slight increase in monthly bills for electricity. The average number of hours a day that electric light is needed during the months of the year is estimated as follows: January, 6.35; February, 5.38; March, 4.10; April, 3.48; May, 2.95; June, 2.55; July, 2.66; August, 4.00; September, 4.45; October, 4.90; November, 6.18; December, 6.65.

Y. W. C. A.

The date of the annual meeting of the Y. W. C. A. has been changed from Friday, February 3, to Thursday, February 2. The other details of the arrangement are as announced previously: dinner will be served at 6:30 o'clock for fifty cents; men are cordially invited to attend. A short business meeting followed by a World Fellowship program will make up the evening's program.

The Y. W. C. A. is glad to be able to announce that beginning Saturday, February 4, a roller skating rink will be opened at 374 Laurel avenue. The rink will be open from 3 to 5 o'clock for all grade school girls who wish to come. Ten cents admission will be charged and ten cents for the use of skates. If skates are brought from home, only the ten cents admission will be charged. The rink will be open in the evening from 7:30 until ten o'clock for all club girls over grade school age and their friends. There will be music in the evening and boys or men are welcome. The admission will be ten cents and twenty cents will be charged for the use of the skates.

Beginning on Friday, February 17, there will be community dances at the Y. W. C. A. every other Friday night from 8:30 to 11. Fifty cents admission will be charged. All young people who wish to dance in a pleasant, roomy hall are cordially invited to attend these dances. Announcement of music will be made later.

The B. Y. club of business girls held their regular meeting at the Y. W. C. A. on Tuesday, Jan. 24, at 8 o'clock. The committee consisting of Bertha Hackenberg, Beulah Demgen and Mildred Davidson, who have been making plans for the club's program for the annual meeting, gave their report. Miss Laura Crane, associate secretary, told the club of a business girls' conference to be held at Janesville, Wis., February 25-26. Several girls from this club will probably attend the conference. After the business meeting a social hour featuring roller skating and refreshments were enjoyed by the club. The Look-Out triangle of grade school Girl Reserves had a club supper at the Y. W. C. A. on Wednesday night. The supper was planned, cooked and served by the girls, under the direction of their advisor, Mrs. Bruce Chandler. The Y. W. C. A. will hold their Sunday afternoon vesper service on Sunday at six o'clock.

INTERESTING FACTS ABOUT THIS STATE

The first Swedish Methodist church in the world was built at Victoria, Illinois. Illinois ranks third among the states in the number of children attending public schools. Customers of gas companies in Illinois outnumber the populations of 16 of the states. Illinois ranks fifth among the states in the manufacture of explosives. The annual output of its eight factories is valued at more than \$2,500,000. Illinois has three of the world's 27 most important and best known bridges. Illinois has 1,615 miles of federal-aid roads, the cost being distributed as follows: \$23,981,923 paid by the United States and \$27,108,647 by the state. More people in Illinois are engaged in agriculture than in any other occupation.

COMPARES LAKE CO. AND COOK IN CRIME

T. R. QUAYLE IN ARTICLE

By T. R. Quayle, Secretary of Lake Co. Law and Order League

The following comparison of conditions in Lake and Cook counties, written by Rev. Thomas R. Quayle of Lake Bluff, secretary of the Lake County Law and Order league, appeared in the January issue of the Church Federation Bulletin. It is headed, "Cook County and Lake County Compared":

We put the names of the two counties side by side, because the disgraceful conditions now weighing heavily upon the minds of all true American citizens of Cook county, are believed to be preventable, for Lake county itself was once in a similar plight. One town in Lake county had 500 people and 17 saloons, 16 of them were houses of debauchery, there was a murder every six weeks. The conditions were so bad that in consequence of the presence of the military post at Fort Sheridan, and the naval station, the government interposed and demanded that the brothels be removed.

Another town, Fox lake (Another town, Fox Lake, had been in the grip of a criminal element for twenty-five years and was the summer quarters of the red light district. The Fox Lake district with its many smaller lakes, the fairest region of the State, was thronged with assignation houses.

When the present state's attorney, A. V. Smith, entered upon his duties seven years ago, he was offered \$10,000 per month as a bribe for immunity from prosecution, individual gambling houses in other cities of the county offered him \$100 per month, each, for protection.

Conditions were so bad in Waukegan and North Chicago on account of the 105 saloons, that the children of drunken fathers would often faint for lack of bread. One family I remember well, (the father was a drunkard) was found in a wretched shanty huddled in rags; there were six of them, one a baby, and they were skeletons. It was the middle of February, there was not a crust nor an atom of fuel in the house, the sheriff and supervisor had just returned from Elgin whither they had taken the mother, who had been driven insane. They carried the children to an auto and rushed them to the Methodist Orphanage, Lake Bluff.

As soon as we succeed in electing Col. A. V. Smith as state's attorney he seized \$35,000 worth of slot machines in Fox Lake alone and I helped to smash them. He drove the criminals from the county. Most of them settled in Cicero where they now form ten per cent of that element whose evil but deserved reputation has come over the world. One of the Fox Lake men was murdered soon after his arrival there, by two of the men who were afterwards slain with McSwinein and they were never prosecuted.

Highwood has taken its proper place between its two sister towns, Lake Forest on the north and Highland Park on the south. Instead of a population of 500 it now claims 3,000. Its lots have run up from \$20 to \$1750 for the cheapest, and on up to \$3500. Waukegan has doubled its population. The employees of the factories are on handsomely on Monday morning, are very efficient, and wages have been raised.

Mr. Smith after paying all expenses of his office has turned \$30,000 into the school fund. Why the difference between the Counties? A moral slump in Cook county and an immense moral development in Lake, and both began at the same time: viz. when the two state's attorneys took charge of their respective offices. A state's attorney vis the most powerful official of any county.

Thomas R. Quayle, Secretary of Lake County Law and Order League.

Predicted that all speed limits for automobiles will be abolished in a few years. Many people will be surprised to learn that any speed limits now exist.

BURNING OF RAW COAL ILLEGAL IN FUTURE

Such Is Belief of Gas Association, Says Report; Maybe They Hope So

A time when the burning of coal will be prohibited by law is foreseen by the American Gas association in its annual review.

"Leading engineers are now trying to disprove what has long been considered an almost axiomatic theory, that coal is fuel," the report says. "The contention is that coal, which

must for thousands of years remain the chief energy resource of the world is an essential raw material from the social, scientific and industrial viewpoints.

"Basing their conclusions on the fact that from 1815 to 1914 the white population of the world increased threefold, while the production of mineral fuels, coal, oil and natural gas, increased seventy-five times, they foresee the time when the burning of raw coal will be prohibited."

Illinois once had 15,000,000 acres of timber, about 42 per cent of its area being wooded.

More Happiness for Women

Women formerly took the strength - stealing, time-wasting struggle of keeping the family properly washed and ironed for granted.

But happily nowadays no woman needs to sacrifice health and strength in combating the arch-enemy dirt.

A service for every house hold - an economical way of keeping the drudgery of wash day out of the house.
