stance of Prof. Mazetti made her finally accept an engagement at the Opera House in the city of Kharkoff, where she made her debut a little over eight years ago.
Becomes Famous
Kurenko, the lawyer, became Kurenko, the famous prima donna overnight, and she was called to the Grand Opera House at Moscow.
Rumors began to spread through Europe of the sensational soprano, so it was inevitable that eventually Kurenko should sing throughout Europe. America was the next step, and the Wolfsohn Musical Bureau of New York, Inc., was the fortunate management to sign her for this side of the Atlantic.
Her American Tours thus far have been veritable triumphs! Critics have hailed her enthusiastically and peans have been written in praise of her art and charming personality.
Famous Male Chorus
The Swift & Co. Male chorus is one of the most popular groups of this character on the American continent. Probably never before has so large an organization of talented singers been heard on the North shore in a program of the kind to be presented by this chorus at this concert, and lovers of mass singing are assured a marvelous treat in the visit here of this famous group, which has won golden opinions and widespread favorable comment wherever it has appeared. Rotary club, who spoke of the history, purpose and achievements of this great international organization. His talk was heard with marked appreciation and was very instructive and full of the spirit of Rotary.

Outlook Excellent
The outlook for the growth of the new club in membership and influence in the community is excellent, it is said, as already there is prospect for rapid increase in the number of members and as these are always carefully chosen by Rotary clubs, a representative body of business men and citizens is always assured under the rules of Rotary International. The Highland Park Rotary club, therefore, promises to be one of the leading civic organizations in this community. Its weekly noon luncheons are held on Mondays at the Moraine hotel.
ANNUAL GARDEN SHOW AT HOTEL SHERMAN
To Be Held March 24 to April 1 in Chicago; Unusual Displays Planned
The beauty of Chicago's suburbs and residence district will be gathered under one roof in spectacular display next month, when more than 50 communities will be represented through their garden clubs in the Second Annual Chicago Garden and Flower show to be held from March 24 to April 1 at Hotel Sherman.
The Garden Club of Illinois, through its member clubs in and about Chicago, will contribute a great number of unique features to the floral exhibit covering practically all the garden features shown, and those in which garden products are entered.
Miniature models come first in this tournament of gardening skill, and each model suburban home will have its planting plan, suitable to its large or small. They will be judged on design, planting and imagination. There are three awards and honorable mention for this class.
There will be shadow box arrangements of flowers in vases or baskets to be judged for composition, color and originality and awarded first, second and third prizes. There will be a contest in the setting of luncheon tables with the correct appointments planned around the flower decoration at a cost not exceeding one hundred dollars and all tables seat six. There are three awards for this showing and the points to be considered in judging are originality, appropriateness, color, distinction and composition.
An open contest for the arrangement of bud, branch, seed pods, or any other natural growth, in any container, has only one restriction—that nothing artificial be used. There are three awards for winners in this section, based on color harmony, relation of material to receptacle, distinction and perfection of arrangement.
At the last meeting of the Flower show committee, it was decided that a tea garden should be opened during the exhibit week and managed by the garden clubs, the proceeds to go to a series of public lectures sponsored by the Garden Club of Illinois.
Mrs. Frederick Fisher of Lake Bluff, president, stated that this year will see twice as many garden clubs entered in the annual Flower Show, and that new clubs are being organized and added to the federation constantly.
"We have a definite purpose," declared Mrs. Fisher, "which is to arouse the public to a consciousness of ugliness in outdoor surroundings and to teach them how this can be changed into beauty. It is our dream to make the state of Illinois one lovely garden, from north to south and from east to west—and the place to begin is in the home grounds."

BUILDING IMPROVEMENT IN JANUARY, \$130,425
Good Start for First Month and Prospect for Year Said to Be Excellent
Despite severe winter weather building operations in Highland Park in January totalled \$130,425, according to the monthly report of Build-

ing Inspector S. D. Morris compiled from permits issued during the month. The improvements for which these permits were issued and the total estimated cost in each class are: Seven dwellings, \$119,000; two alterations, \$10,300; four private garages, \$1,125.
The total for January, 1927, was \$151,800, and the total for the period, May 1, 1926 to Jan. 31, 1927, was \$1,988,249, as compared with \$1,755,465 for the period, May 1, 1927 to Jan. 31, 1928.
The latter figures show a decrease in comparing the corresponding periods in the two years, but prospects are said to be promising for 1928, and the indications are that Highland Park will have a record year in building improvements.
