This most blessed season begins on Ash Wednesday, Feb. 22, and extends to Easter, which this year falls on April 8.

The success of last years wonderful Lenten Season prompts us to bring this matter again to the attention of our people, for indeed we would not leave anything undone, that would help make this season a still greater success.

Our church should make the most of it. But, dear member and friend, do you know that the season will be just what you and I make it? If responsible for anything, let us be responsible for its success.

Action was taken to have two car loads of gravel put upon the school play grounds, also action necessary to complete the work of making a good school library.

The membership chairman, Mrs. Ginter, presented ten new names for membership. After the business session, Mrs. McArthur took charge of the program.

Why go to school? Uneducated laborers earn on the average of \$500 a year for forty years—a total of \$20,000. High school graduates earn an average of \$1,000 a year for forty years—a total of \$40,000.

This education requires twelve years of school of 180 days each—a total of 2,160 days.

If 2,160 days at school adds \$20,000 to the income for life, then each school day adds \$9.25.

The child that stays out of school to earn less than \$9.00 a day is losing money—not making money. Statistics of C. P. Cary, Former State Superintendent of Wisconsin. Although the wage scale is higher today, the comparison will be the same.

One of the teachers in Deerfield Grammar School recently was doing some shopping in one of the loop department stores. She was facing a large sign which read, "Bargains in Basement."

She was wondering where the lunch room was. As a floor-walker passed her, she said to him, "If you please, can you tell me what floor the basement is on?" She wondered what made him act so queer.
