MOVE AGAINST LAKE POLLUTION AT MEET

Sanitary Congress of Eight of States in This Region Makes Progress

Support of the movement to end pollution of Lake Michigan was pledged by representatives of eight states, together with representatives of our own North Shore Sanitary district board at the meeting of the Lake Michigan Sanitation congress which closed at Gary last week.

Members of the North Shore board who were assigned to attend the congress were: John Oliver, chairman; Dave Webb, Walter Atkinson and A. F. Beaubien. Mr. Beaubien did not attend.

These representatives, meeting in Gary at the fifth annual convention of the Lake Michigan Sanitation congress, reached, in a resolution, a "Great Lake Drainage Basin Agreement," in which the health departments of Minnesota, Illinois, Indiana, Ohio, Pennsylvania, Michigan, and New York are pledged to conduct a united and vigorous campaign to stop pollution.

This action is a direct outgrowth of Chicago's fight to stop pollution by industrial plants in the Calumet region, according to Dr. William F. King, Indiana state health commissioner, who announced the results of the conference at a banquet attended by the hundred delegates to the congress.

A Fence for the Small Estate

These snug little suburban homesteads of two or three acres can well mark their legal limits with the fence that "fits in" admirably with artistic and comfortable surroundings. RUSTICRAFTS hand-split timbers of tough young chestnut are as good to look at as they are sturdy and durable. Their natural rustic appearance actually improves with age and requires no paint or care. RUSTICRAFT is easily erected and just as easily taken down for removal.
