#### Pastor DR. ADLER TO SPEAK HERE MONDAY, APRIL 9

"The Problems of Life as Social Problems" Subject; At Elm Place School

The residents of the North Shore will have a most interesting treat on Monday evening, April 9, at eight p. m., when Dr. Alfred Adler of Vienna will address his audience on "The Problems of Life as Social Problems."

Dr. Adler occupies a great position in Vienna as a psychologist-one who is especially interested in the understanding and guidance of young children. He has formed 22 clinics in the city of Vienna where his teachers are trained to understand children and the problems of the normal child as understand. This has proven a great stride forward in education.

The proceeds of the lecture will be used for a conference with Dr. Adler for the teachers of the Elm Place school. Any special problem which they find difficult he will try and help them solve.

It is a great opportunity to hear this "friend of the children"-and, because of the growing interest in Dr. Adler's audiences which he drew last year, we urge you to buy your ticket early.

Controversy Not Settled There was considerable objection especially to the amount of assessment on the side streets, and Mr. Clark explained that while the matter was now in the hands of the county court, a recommendation to that court for a reduction probably would have weight, and the controversy ended by his promising to approve a reduction for those assessments on side streets, provided such a recommendation would be accepted by the court. It appeared that this was not satisfactory to a number of those objecting, and there is probawell as the one whom it is difficult to bility that the improvement may be delayed in consequence, although the differences may be smoothed out later, it is hoped by those interested.
