

DECLARES HIS HOPE IN NEW GENERATION

BISHOP DEFENDS YOUTH

Attacks Vaudeville Antics In Church and Holds That Young People Will Alter Customs

A defense of the purposes and attitude of the young people is issued by the Rt. Rev. Charles Fiske, Bishop of Central New York, in an article attacking vaudeville antics in church services, appearing in the March number of the New Scribner's Magazine. Bishop Fiske calls his article "Saving Souls Through Church Suppers" and says in part:

Where Hope Lies
"The thoughtful minister knows that his real hope lies in the coming generation, whatever the mothers in Israel may think of the manners and morals of youth. He feels a special call to serve youth, because he knows, as does no one else, how tragically their interests have been overlooked by the generation now passing. Because of this neglect we find, among young people of high school and college age, an appalling ignorance of the simplest facts of Christianity and of the fundamental truths of the Christian life and its moral teaching. While, however, their ignorance is often amazing, they are really keen to know the truth. They have broken with tradition; they will no longer accept ideas on mere authority; but they can be equipped to do their own thinking, guided and directed into real thinking, led out of mere questionings into belief, taught to distinguish between essentials and non-essentials of faith, led to see what the Christian faith actually is rather than left to reject certain caricures of it which they assume to be the real thing.

Work Among Youth
"Practically all of the Christian communions are now turning in force to work among the youth in our colleges, though quite conscious that they are handicapped because of the neglect to prepare the students earlier, before they came to college age. We are doing what we can with limited means, to bring to these young people a true conception of the Christian religion. The task is made surpassingly difficult, because these thousands of students come, at a most impressionable age, into the restless social and intellectual life of the college, freed from some of the restraints which even yet are credited to the home, starting on the adventure of life with little or no preparation

for its dangers and temptations. Their naive idea of Christianity indicates a sad lack of pastoral care and teaching at home, and a still more sad lack of knowledge and training on the part of their parents. Therefore, while trying to lead these youth into straight thinking, the college pastors are crying aloud to the clergy at home to do the work among the youth there which will make easier the task of the college pastor in the coming years."

PORTUGUESE SCHOOLS IN U. S. AND BRAZIL

By a decree recently issued by the Portuguese Ministry of Public Instruction, the "Escola de D. Nuno Alvares Pereira," in Rio de Janeiro, and the "Escola Portuguesa do Ateneu," in Fall River, Mass., are to be considered as primary official schools of the Portuguese Republic, and the diplomas issued by them will have the same value as those issued by the official primary schools of the metropolis, according to Fred Morris

Dearing, United State Minister, Lisbon.

ALLOW TEACHERS 20 DAYS OF SICK LEAVE

Twenty days of sick leave each year are allowed teachers in Saskatoon, a city of Saskatchewan Province, Canada. The sick leave amounts in 10 years to a school year; and if unused for that purpose, the teacher may take a year's leave of absence and receive 60 per cent of the salary, provided at least half the year is spent in study and self-improvement.

FOXY POLICY

It isn't always a foolish man who goes from a higher salary to a lower one. It is not because he wants less money but more job.—American Magazine.

Formerly the American home was a place where people lived, but now they simply sleep there between shows and automobile rides.

THE MOCCASIN
—it's lined!

HERE'S the new Pool & Piper Moccasin Shoe of Smoked Elk—in high and low styles—for your boy or girl to wear this spring.

You'll find this improved type of Moccasin exclusively at this store. It is made especially for us according to our own specifications—therefore you know it's comfortable, good looking, well made and long-wearing!

And it's lined! That makes it different. More comfortable. Better fitting. More sanitary. It took a long time to find a manufacturer who would "take the trouble" to give us what we wanted—a lined moccasin. But here it is—just in time for spring wear!
