STATE OPENS BIDS ON BRIDGES MAY 9

FOR NORTH SHERIDAN RD.

City Council Learns This Is Plan of Highway Division; Proceedings at Session Monday Night

That bids on the contracts for the construction of the two North Sheridan road bridges in Highland Park, which the state department of public works and buildings some time ago promised to build, will be opened next month is the report received this week at the city hall.

An unconfirmed rumor that work was to begin shortly on these bridges was in circulation recently, but City Clerk Musser, in a telephonic conversation with District Engineer Lenz of the state department at Elgin, learned this week that the plan was to open bids on the bridge work on May 9. This was reported to the city council on Monday evening.

Permit Granted

At this session of the council the Automobile Repair Service was granted permission to install gasoline pumps in front of their new building in North Second street, according to their petition filed last week. The permit is limited to two years, in compliance with an ordinance recently adopted by which all such pumps must be removed from the streets within that period.

A petition was received from residents on Bob-O-Link road and McDaniels avenue, asking that improved sewers there seem to be inadequate. The matter was referred to Commissioners Zimmer and Brown, who with the engineers will make an investigation of the entire sewer system in that region with a view to determining where the difficulty lies.

Dedication of Alley

The plat of the dedication of an alley in Krenn & Dato's subdivision in the northern part of the city was submitted and approved by the council. The plat of the Mills subdivision also was submitted, and it was referred to the city plan commission for examination and report.

Ordinance Providing for the Paving with Concrete of an Alley in Block 5, as Recommended by the Board of Local Improvements, was Finally Passed, after an Ordinance Previously Passed to Pave this Alley and Install the Storm Sewer Connections in Walnut Avenue, was Repealed by Another Ordinance Amending the First One Passed so as to Eliminate the Storm Sewer Features.

Proposition to install a sanitary sewer system in Highmoor subdivision by special assessment, according to petition to that effect, is to be held up pending the construction of the big trunk sewer system planned in that section. In connection with the

Commerce Chamber Guest Night Much Enjoyed By Crowd

Tuesday evening was ladies and guest night of the Highland Park Chamber of Commerce, and about 140 members, their ladies and friends assembled at the Woman's club building where they were served a delicious fried chicken dinner with all the seasonable and appropriate accessories by Mrs. Green of the Green Teapot. It was a splendid repast and greatly enjoyed by all present, who complimented both the dinner and the excellent service.

After the dinner the party went upstairs where the chief entertainment feature of the evening was a demonstration and lecture on liquid air by F. D. Rugg, a graduate of the University of Illinois, who has delivered this lecture in every state in the union always with great success.

The demonstration, accompanied by a running explanation by Mr. Rugg, was a very interesting and spectacular one, and some of the experiments were quite amazing, those present report. Among them were the freezing of strawberries with the use of liquid air, making them hard as marbles, in a glass in which the temperature was reduced to 312 degrees below zero. At the same time and in the same glass steel was melted and welded at a temperature of 3,500, according to the demonstrator. Icicles were made of alcohol; small cotton balls were frozen solid and thrown about the audience causing much excitement and amusement whenever handled. Mercury was frozen into a hammer with which nails were driven, and the liquid air was boiled violently in a tea kettle on a cake of ice, while at the same time the flame at the bottom of the kettle was frozen from the low temperature of the liquid air in the kettle.

These experiments were watched with great interest and fascination by those present, all of whom voted it a most interesting and instructive demonstration.

Following the lecture dancing was enjoyed, with the Sheridan orchestra providing the music. The party throughout was a very successful one and those attending complimented the officers and committees of the Chamber of Commerce in charge on the splendid entertainment provided.

GUILD PLAY SHOW HERE ON APRIL 25

TITLE, "TONS OF MONEY"

Popular Farce With Louis Laffin, Lake Forest, in Title Role; Good Supporting Cast; Details of Piece

When a fortune-hunter sets out in quest of a ton of money, tantalizingly dangled before his very eyes, he is willing to go to almost any limit of absurdity in order to win his pot of gold. If there is any limit, it is certainly not disclosed in the play, "Tons of Money," a comedy of errors to be presented by the North Shore Theater guild as the last play for its current season, to be given at Highland Park, April 25.

For laughing purposes only, this story of an English Jason, recklessly pursuing the fortune offered in the eccentric will of his deceased brother, was written by England's foremost fortunes, when everyone has his own particular "racket," his own secret formula for garnering a goodly share of the world's wealth, it will be interesting to study the technique of a master dollar-chaser whose methods are most unusual, if not effective.

Aubrey Henry Naitland Allington, the dizzy hero of "Tons of Money," is a man who could probably not live within his income if it doubled and tripled every pay day. But his resourcefulness is equal to his extravagance. His imaginative wife, Louise, is never at a loss to suggest new and daring means for Aubrey to gain his ends. Her suggestions lead to countless complications, and to it is said that "the woman always pays," it is Aubrey who invariably pays for her desperate intrigues, and believe you us, he pays dearly.

Laffin Plays Lead

The role of the blundering Aubrey will be ably taken by Louis Ellsworth Laffin of Lake Forest, who is well known in Chicago dramatic circles, both as an amateur actor and as a playwright. He recently wrote a one-act play entitled "The Devil's Disciple," which was produced at the Goodman Theater, and two new dramas from his pen are scheduled for an early showing at the same place. When at Princeton university, Laffin was a member of the Triangle club, being co-author, director, composer and actor in two of the musical productions of that well-known organization. His appearance with the guild, in a part of unique possibilities, will be watched with interest.

One of the guild's new discoveries, through the tryout system, is Irene Wicker, who takes the feminine lead in "Tons of Money." She is a product of the Goodman Theater School of Dramatic Art, and has been playing elsewhere in stock for over a year. Previous to that, she played leads with little theater organizations in Peoria, Illinois, and Canton, Ohio, and is now taking part in stock productions in Oak Park. In "Tons of Money," she has a splendid opportunity for comedy character portrayal as the shrewd, scheming, lovable wife who generously risks her husband's life for the sake of an elusive quest.

Strong Supporting Cast

A strong supporting cast makes "Tons of Money" one of the most promising ventures that the guild has yet attempted. It is a fitting program to close a highly successful season on the North Shore. The usual itinerary of the guild will be followed—Glencoe on April 24, Highland Park on April 25, Lake Forest on April 26, Winnetka on April 27 and 28, Wilmette on May 1, and Evanston on May 2 and 3.

ANNUAL MEETING OF H. P. CLUB APRIL 16

The second place winners, Miss Catharine Yaeger and John Michella also displayed some beautiful rhythmic dancing by giving an entertaining exhibition to all who watched them. This contest met with so great an approval by the many dancers that the Social club will hold another prize fox-trot and confetti dance next Saturday at Witten hall. Everybody come next Saturday at Witten's and enjoy the prize and confetti dance.

OPEN FINAL DRIVE FOR SCOUT FUNDS

URGE ALL TO HAVE PART

Local Committee Plans for Windup Campaign; Three-Fourths of Quota Raised; Benefit Explained

With more than three-fourths of the Highland Park share of the Boy Scout funds for the 1928 budget already raised, the local committee, headed by M. J. Traub, met last Monday evening to plan the wind-up of the campaign.

The men present were M. J. Traub, A. P. Snite, N. H. Anspach, J. B. Lowenstein, Nathan Klee, Harry Cannmann and R. E. Herman. These men have outlined a comprehensive drive to complete the Highland Park quota in a short time and everybody in the community who has not already helped is urged to aid this good cause insofar as they can.

Force in Community

Scouting is a force in community life, the committee declares; it helps every man, woman and child in the community, and everyone, therefore should have a part in carrying on the scouting program. In the past only a small portion of the citizens of Highland Park have participated in this work and helped it financially, and it is hoped to make the scouting support locally more representative through this campaign.

This is the chance for all residents to have a share in this fine work for the youth of the city. Checks should be made payable and mailed to Harry Paul, treasurer, Highland Park State Bank.

If you have boys of your own, you have very definite ideas and ideals for their training. You want them to grow up strong and healthy, to be clean-cut and honest, to make the right sort of friends, to be good citizens. And you want to hold their confidence in you.

Scouting Is Factor

The Boy Scouts of America inspire these same ideals and they have an efficient organization to help you in your efforts to make these ideals facts in your boy's life, by his own choice.

The Boy Scout merit badges are in themselves an educational process by which your boy through his own interest will study his life vocation or avocation.

The Scout Oath—"On my honor I will do my best to keep myself physically strong, mentally awake and morally straight, to do my duty to God and my country and to obey the Scout laws, to help other people at all times."

He has owned and directed Camp Highlands since 1913, whose reputation among other camps is evidenced by the fact that he was elected an officer of the national association of camp directors.

Besides this abundance of scientific preparation his ideals have been colored by his parental experience as a father and grandfather.

All parents interested in the summer vacation of their children are invited to attend.
