

Opening with a "foolishness parade" in which several hundred scouts representing their various troops will co-operate the Northshore Area Council Fun Rally will be held at the Cabin in the woods on Saturday afternoon, May 12. Following the parade will be a mammoth wool-hunt, a shoe-scramble and a series of other stunts and other woodcraft contests.

At 4 o'clock the Area Wide Court of Award for the presenting of ranks of above first-class scout, will be held. Many troops are making this an occasion for a family picnic dinner with troop camp-fires in the evening.

May 12 is the big date on the scouting horizon ahead.

Outdoor Party, Lindbergh Day
Monday, May 21, marks the Anniversary of the day on which Col. Lindbergh started on his non-stop flight to Paris. It also is the date for the annual Scoutmasters' Outdoor session in their monthly round table program.

Scoutmasters and Assistant Scoutmasters from all of the Northshore troops will meet at the cabin in the woods at 6:30 to enjoy a dinner and an evening's fellowship together. The event is being staged at the expense of the Council as a tribute to the fine work of the local scoutmasters.

Outdoor Session
The outdoors has long played an important part in the program of scouts. An announcement was made last week that scoutmasters will hold their next roundtable outdoors. Now comes the word that the Executive Board of the Council, that group of dignified men who determine the plans and policies of the council progress, will hold their May meeting at the cabin-in-the-woods on Thursday evening, May 10. Earl D. Kink, president will preside.

Older Scout Camp
New camp for experienced campers. At last old campers! Your dream is about to be realized. A new camp for experienced campers is being established on Hiawath Beach, Big Blue Lake. Only those scouts who are First Class or higher, over 15 years of age, and who have been in an organized camp for at least a period of 2 weeks are eligible to attend this novel camp. Scouts in this camp will be divided into the following units: Waterfront, Indian Lore, Foresters, and Pioneer. Each unit will live in a distinctive type of camp. The Pioneers will live in Adirondack shacks; the Foresters in tree houses; the Indians in teepees, and the Waterfront men in beach tents. Many new and interesting phases of activity are being arranged such as overland hikes, canoe trips, gypsy trips, boating regattas, etc. Special equipment is being purchased for use in each of these units.

Scout Scholarship—Scout Executive Walter McPeck received a letter last week asking for a recommendation of an outstanding scout in the Northshore Council to take advantage of a scout scholarship at Kalamegoo college. The Scholarship amounts to \$200.00 and is particularly designed for boys who are helping to enter some form of social service as a life work.

To Take Trip—Several men of the camp committee and the scout executive plan to spend about 3 weeks during the latter part of May examining available camp sites in northern Wisconsin. More than 10 different locations are under consideration.

WOULD USE FUND TO BUILD ROADS

BIG SALE OF FRENCH BONDS

Bill is Offered to Utilize This Money For Federal Construction of Paved Highways in U. S.

A bill (S-3559) authorizing the creation of a special highway fund from the proceeds of the sale of \$407,841,145 worth of surplus highway equipment and war materials sold to France following the war has been introduced in the Senate by Senator James E. Watson of Indiana. The measure, providing this huge sum of money for highway construction, stipulates the funds are to be apportioned among the 48 states in the same proportion as the Federal-aid program. It is a companion bill to H.R.101,42, introduced in the House on January 30 by Representative Edward E. Browne, and which has already been endorsed by the Governors and State Highway Departments of twenty states.

The measure, which is being fostered by the American Motorists association, is unique in that it will add nothing to the tax payers burden, as the funds are to be raised solely through the payment of French bonds which will mature August 1, 1929 and which were given in payment of more than \$2,000,000,000 worth of equipment and supplies.

Will Speed Up Building
"Its passage will mean the speeding up five times of the present highway construction program in the United States," President J. Borton Weeks told the House committee on Roads during the hearings on the Browne bill. "The measure will have the undivided support of the 23,480,000 automobile owners in the country and should speedily be enacted into law as it is economically sound" declared St. Mayer, Vice-President of the American Motorists association and President of The Automobile club of Illinois.

Under the federal-aid proportionment the largest sum will go to Texas which will receive \$21,937,000 for highway construction, ranging down to Delaware which will receive nearly two millions under the bill.

In the introduction of the measure, Senator Watson made it clear that this sum is in addition to the regular Federal-aid appropriation of \$75,000,000 each year for 1929 and 1930, declaring that both sums are needed to speed up the highway construction program in the United States to keep abreast of the increasing motor traffic. The Watson bill was referred to the Senate Committee on Post Offices and Post Roads and hearings on the measure are expected to be held within the next three weeks.

Many of the people who laugh at the Prince of Wales for falling off his horse, are getting ready themselves to figure in an automobile accident from reckless driving.

Acquittals, paroles, and pardons seem to indicate there has been a great reduction in the wages of sin.
