THE MONTH OF ROSES

June has always been noted as the month of roses. When people dream of sweet peace and rural joys, their vision is apt to take the form of a rose covered cottage, over which the ramblers climb luxuriantly, and which dazzle the beholder with the brilliancy and intensity of their color.

Roses are supposed to grow in all temperate parts of the northern hemisphere, so they come very near being a universal national flower. Innumerable verses and some music have been written with roses as the inspiring theme.

Some years ago over 100,000,000 cut-roses were being sold annually in this country and the number must be very much larger now. The roses have their insect enemies, and the householder must do something besides looking at them to make them flourish, but the smiling and radiant blossoms amply repay him for the effort.

GOOD ROADS MAKE THE WORLD KIN

Paved city streets and improved highways leading to the city, affect the growth and prosperity of the community in many ways. In the first place, cost of upkeep of an unpaved street or highway is much greater than if the thoroughfare were paved. The entire surface of a paved street is usable; that is, there are not two lines or ruts which the traffic follows, as on a dirt or gravel road. Therefore, paving increases the capacity of streets and highways.

Paving enhances property values and acts as an inducement for home owners to improve the appearance of their grounds and houses, making that street a more pleasant place to live on.

Paved streets make a city more desirable from an industrial standpoint, for, a factory or any business which requires hauling will naturally pick a town where hauling can be done most speedily and economically.

We are no longer living in the days of the old walled cities. Good roads, good streets and rapid locomotion have annihilated time and distance and virtually made the whole world kin.

10:30 Depart for home.
Special responsibilities will be assigned to the more advanced scouts under the supervision of the scoutmaster and his assistant.

It is expected of all scouts who participate in this over-night camp that they will adapt themselves to this program with the least amount of delay and give their fullest co-operation in carrying it out. Scouts will make their own arrangements to get to camp. If you are up against it for transportation, speak to the scoutmaster.

Bring mess kits, or frying pan. Do not bother with plates, knives, forks, spoons; there are plenty at the cabin. Bring food for two meals. We will be back in time for dinner on Friday. Consult your manuals and try and prepare other dishes than are suggested below.

Bring two or three blankets, soap, towel, and toothbrush. We will sleep in the cabin; cots are provided.

Suggested Menus:
Supper: Fried or soft boiled eggs, bread, cocoa, jam, fruit.
Breakfast: Griddle cakes, with syrup, bacon, potatoes, bread, coffee or cocoa, jam.
Patrol leaders will supervise the cooking.

CULINARY HINTS

Barbecued Chicken
This is a method of preparing chicken that is not only easy to make, but gives the housewife the chicken soup the family enjoys so much. Boil chicken until tender. Cut apart into sections for serving. In a deep pot or roast pan, put a large lump of butter and one of lard. In this fry one large chopped onion until brown. Then drop in floured chicken and brown thoroughly. Add one teaspoon paprika, one cup tomato pulp, salt, pepper and one cup soup stock or water. Thicken with a little corn starch dissolved in cold water if the gravy is not quite thick enough. When nice and smooth, serve on a large platter.

Tomato and Shrimp Salad
Salad days are coming apace. Select firm tomatoes. Remove skins. Scoop out centers and turn upside down for half an hour to drain. Chop the pulp with cooked shrimps, chopped celery, salt and pepper and mix together with mayonnaise. Fill tomatoes with the mixture. Chill. When ready to serve, place on beds of lettuce and garnish with whole shrimps and quartered hard boiled eggs.

Orange Walnut Pie
To make pastry, take 1 1/2 cups flour, 1/4 teaspoon salt, 1/4 cup lard; rub these dry through fingers, and add enough cold water to hold together, mixing water in with knife. Roll out thin, and line pie plate, making high-edge. Bake until half done.

Filling
Beat yolks of two eggs and 1/2 cup sugar to a cream; add one tablespoon lemon juice and the juice and grated rind of one orange; also 1/4 cup chopped walnut meats. Add this filling to half baked pastry and finish baking. Cover with meringue made of two whites of eggs beaten stiff with two tablespoons powdered sugar and 1/2 cup walnut meats chopped very fine.

Now that the baseball season is open the League of Nations will have to take a back seat for a while.

Dame Nature certainly pulled an error when she distributed the vitamins. Why couldn't she have put the vitamins she placed in spinach and carrots into ice cream or pumpkin pie?

Of course a desolate island off the coast of Labrador isn't a very pleasant place to make a landing but when you are travelling in an aeroplane and run out of gas, almost any old port ought to look pretty good.
