**Congressman Favors More Locks in Panama Canal and Better Defenses**

Congressman Carl R. Chindblom, who with his family recently sailed from the Panama Canal Zone for Hawaii, while at Balboa, Canal Zone, expressed opinion, according to press dispatches that preparation for an extra set of locks in the Panama Canal should be made without delay. "With the ever increasing South American and Pacific trade, I am sure these locks will be required within ten to fifteen years," he said. Mr. Chindblom also urged the need for defenses on the Pacific side, which he thought were inadequate at present.

**An Appeal to Our City:**

While cleaning up nuisances in our city such as billboards etc., lets remove the greatest nuisance and menace of all "the septic tank," which is located on the border of our golf course, and in the geographic center of our city. The removal of this nuisance would, we are sure, be the means of increasing the population of our city, increase the membership of our golf club, and insure healthier conditions.

No doubt every citizen of Highwood appreciates the little park just completed at Highwood avenue, and its constantly used drinking fountain. These two improvements were made and paid for by the Highwood Civic Improvement association. Many more improvements like these can be had if the citizens will support the members in making the coming Highwood Day the biggest yet.
