The Attractive New Building OF THE AUTOMOTIVE REPAIR SERVICE

*133 North Second Street
 Highland Park, Illinois
 Phone Highland Park 612*

This splendid new building is modern in every way. Large floor space, together with plenty of light, and the most up-to-date machinery make this one of the outstanding auto repair shops on the North Shore. The Building itself was carefully planned, and just as carefully constructed. Only the best of materials were used, while the work itself was done by expert craftsmen. Among those who participated in the erection of this building are the following contractors.
