

GLACIER BEARS IN GROUP IN MUSEUM

IS NOTABLE EXHIBITION

First Section of Hall of American Mammal Habitate Collections; Mother and Three Cubs

A group of glacier bears, representative of the smallest species in North America, mounted in a scene reproducing in exact detail their natural habitat near Yakutat Bay, Alaska...

The group completes the first section of the hall of American mammal habitat groups, in which eleven other beautiful groups of North American animals with reproductions of their environments are now on view.

The new glacier bear group shows a mother with three cubs. The mother, with one of her cubs beside her, lies on the rocks taking her mid-day rest. The other two cubs are seen at play nearby...

Not True Species The glacier bear is not a true species, but is a color phase of the common black bear, according to Dr. Wilfred Osgood, curator of zoology...

well known naturalist, Dr. William H. Dall, and given the scientific name "Ursus ommonsi," in honor of Col. F. S. Emmons...

Opposite the new group at the museum is one of Mexican grizzly bears, and future plans contemplate installation in an adjacent section of groups of polar bear and the huge Kodiak or Alaskan brown bear...

RED CAP HEAD TELLS OF CELEBRITIES SEEN

Director of Porters at Grand Central in New York in Interesting Talk

American presidents and leaders in the world of finance, visiting celebrities and leaders from all sections of the United States are well known and sometimes personal friends to Chief Jim Williams, director of the red cap porters at Grand Central Station in New York...

"And they always send it back to me," says Williams. "Jim's friendship with the late President Roosevelt," says the magazine, "covered a period of many years. Today no subordinate is allowed to touch the bags of any member of the Roosevelt family if Williams knows anything about it..."

ALL LICENSE PLATES NOW CONFORM IN SIZE

For the first time in the history of the automobile industry, all automobile license plates for the 48 states now conform to a standard size, according to an announcement by the statistical bureau of The Automobile club of Illinois...

A great many people are peering into the future, and they must find a lot of creditors demanding payment for their overdue bills. It's our humble opinion that the worst sort of bee that can sting you is the political bee.

WOMEN DESIRE TO VOTE MORE WISELY

CLUBS ARE SIDING THEM

Making Study of Politics and Practice of Elections to Be Able to Cast Ballot Properly

In order to enable women who vote this year to do their balloting more intelligently than ever before, thousands of women's club and study groups are planning to spend the next few months in definite courses of study on the problems of election choices and candidates.

These groups of women have found a non-partisan service ready to hand in the Good Citizenship Bureau of the Woman's Home Companion, which has published a series of six pamphlets, describing clearly and graphically the process by which a president is elected.

Partisans of Mr. Hoover lay great stress to their claim that he has the sympathy and support of a large body of women throughout the country. Supporters of other candidates make similar claims.

Women who desire to start courses of study in presidential politics may arrange to obtain copies of the pamphlet textbooks by writing direct to the Good Citizenship Bureau, Room 1300, 250 Park Avenue, New York.

CANADIAN LAW STRICT AGAINST DOGS' ENTRY

Owing to the present scourge of rabies, heavy penalties are prescribed by the Canadian law against bringing unvaccinated dogs or other animals into the country, regardless of their healthy condition, according to a bulletin issued by the touring bureau of the Chicago Motor club.

The bulletin goes on to say that Ohio laws also forbid bringing into the state a dog which has not been vaccinated since the expiration of the effective term of this treatment.

All that the candidates have to do is to please everyone without promising to do anything.
