FINE PROGRAM AT RAVINIA EACH WEEK

MODERN OPERAS POPULAR

"Marouf" Repeated Aug. 9; Program for Eighth Week Begins Aug. 12; Many Interesting Features

"Marouf," the ultra modern French opera which flashed across the Ravinia horizon something like two weeks ago and was so enthusiastically received that a second performance was found necessary on Thursday night, Aug. 9, even though the original schedule had not called for such an arrangement, continues to be the theme of conversation among opera patrons, and so insistent has been the demand that Mr. Eckstein now finds it imperative to announce a third performance of this fantastic work for Monday night, Aug. 13, thus giving it the distinction of a special. From present indications it is believed that a fourth and possibly a fifth performance will be necessary before the demand of the public is satisfied for the present season.

Quick Popularity
It was predicted sometime before "Marouf" was given its premiere Ravinia showing, that although entirely unknown to opera patrons west of New York, and although it had been given only a few performances in this country, and these at the Metropolitan Opera House back in 1917, it would likely spring into public favor in the same manner as did "La Vida Breve" when this Spanish opera was first presented at Ravinia two years ago. It will be remembered that this De Falla work was just as unknown as "Marouf," and what is more, it lasted only fifty-five minutes, yet because of its novelty and the artistic presentation it received, it was necessary to bring it to performance five times during its first season, and even more performances would have been welcomed had the season lasted a few weeks longer.

Interesting Novelty
And speaking of interesting novelties, Mr. Eckstein announces that he continued on page 6, second section

CITY EMPLOYEES CLAIM THEY'RE NEVER QUIET

Much Accomplished Despite Bosses' Absence; Central Ave. Is Resurfaced

Over at the city hall they claim they are pretty busy these days, despite the hot weather and notwithstanding the fact that the city clerk is on vacation and the city council is quiescent. They take exception to the report that things are quiet at the city hall and claim that stenographers and clerks are never quiet and that much is being accomplished daily.

One of the busiest of the city officials just now is Street Superintendent John Hart. It's about the hottest week of the summer, but that gang is hustling just the same and in the last few days have resurfaced Central avenue throughout its length in the business district, a marked improvement that is generally appreciated.

Inside the city hall the typewriters hum and the pens are pushed industriously all day long and business is brisk, thank you! Everybody is busy at something.

DEERFIELD PLANS FOR BIG SILVER JUBILEE

To Celebrate Anniversary Aug. 25; Program of Many Fine Features

Good progress is reported by the various committees engaged in preparing Deerfield's big Silver Jubilee celebration to be held Saturday, Aug. 25, and it is believed that this will prove one of the most enjoyable events in this history of the village.

The program will be given in the afternoon and evening. All kinds of carnival attractions are to be included in the features planned. There also will be a good baseball game, a monster parade of proportion exceeding all previous attempts in this line in Deerfield, and many other attractions too numerous to mention. Deerfield does things right, and those who attend are assured a good time. The entire North Shore is invited. Remember the date, the place and the event—Saturday, Aug. 25, Deerfield, Silver Jubilee.

Former Mayor Talks At Rotary Meeting; Gives Fine Address

An eloquent, timely and thoughtful address by former Mayor Samuel M. Hastings was the principal feature at the regular luncheon of the Highland Park Rotary club as noon on Monday. Mr. Hastings' talk was heard with deep interest and appreciation as he briefly outlined the achievements of American genius and predicted universal adoption of the Golden Rule.

After brief introductory remarks he pointed out how American invention has revolutionized the world with the telegraph, lights the world's cities, hurled the human voice over the earth—the telephone; immortalizes human voice—the phonograph; emancipates woman—the sewing machine; regenerates trade—the typewriter; solves world's food problems—agricultural implements; inaugurates new epoch—the cotton gin; utilizes rubber forests—process of vulcanization; inaugurates the paper age—pulp process; revolutionizes printing—modern presses; gives the world the typesetting machine; creates the modern cities with the elevators; develops photography; solves problems of aerial navigation.

"I tell you no new thing," continued the speaker, "when I remind you that three hundred years ago there was

JOHN GANTOR NEW H. P. OPEN CHAMPION

DEFEATS INMAN IN FINAL

Hard-Fought Battle Last Sunday Results in 3 to 2 Victory After Poor Start; Club Tourney Next

Last Sunday, August 5th, John F. Gantor and N. Inman played the finals for the Highland Park Open Championship. Gantor being the victor in a nip and tuck fight, by a 3 and 2 victory over Inman.

It looked very much like a one sided affair for Inman after the first six holes as Inman was three up. Gantor was playing very poorly. However he came to life and the ninth hole found Inmans lead reduced to one hole. The inside nine was a hard fought battle both players went to it as if they were real veterans of many a conquest. The morning round found Gantor going to lunch with a lead of one up match and one medal. Gantor had 77, Inman 78.

Plays Perfect Par
Starting the afternoon round Gantor had a look of confidence that has won many a golf championship. This nine proved beyond doubt that Inman was through so far as this championship was concerned, as Gantor played the nine in perfect par figures and won five holes almost in rapid succession.

Gantor played unbeatable match play golf. Inman's position of six holes down and nine holes to play was entirely too much for any golfer to overcome, although Inman being the golfer he started a rally, brought the lead down to two with three holes left to play.

The crowd began to feel that Inman had a chance which he did as Gantor was slipping badly. The six- Continued on page 4

While this will doubtless be a disappointment to many, the class is offering its members a delightful substitute program in the form of a visit to the beautiful gardens of Mr. Harold Iches, Tower and Sheridan Rds., Winnetka. This garden, considered one of the most beautiful on the North Shore is especially noted for its fine collection of dahlias.

The class will meet at the home of Mrs. Henry McKay, 830 S. Linden avenue at ten o'clock on Wednesday, August 15, from whence the trip to Winnetka will be made. Kidder, it is reported, was driving south and a car in front of him stopped suddenly. The Cadillac then swerved and struck the Bakke car. Dr. Jacks attended Mrs. Bakke at her home.

McKILLIP TO BUILD POST OFFICE BLOCK

BUYS SCHUMACHER TRACT

Assumes Agreement With Government, Will Erect Structure on Sheridan Road; 3 Stores Included

W. H. McKillip has purchased the Schumacher property on Sheridan road and will proceed with the erection of a building to house the Highland Park postoffice and which also will contain three additional store rooms.

The property was purchased from Howard and Norman Schumacher, who in April leased the property for post office purposes, agreeing to erect a building thereon to contain 4,000 square feet of space for the post office. In taking over the property Mr. McKillip assumes the post office lease and will provide accommodations for the office as required under the terms of the lease.

Contracts Let Soon
Contracts for the new building have not been let, but it is expected that this matter will be taken care of in a few days, and Mr. McKillip hopes to have the work on the excavation started within two weeks.

The building, which will be situated on Sheridan road, north of the Moldaner & Humer building, will be one story in height, with deep and commodious basement to give plenty of storage room for the stores above, as merchants seem to want large basement room, Mr. McKillip says.

Dimensions, 100 by 96 feet
The dimensions of the structure will be 96 feet on Sheridan road and 100 feet deep. The building will be of brick and concrete, with adequate and tasteful trimming, built in the suburban style which best harmonizes with the purpose for which the structure is erected and with the general architectural plan of the business district.

As soon as preliminary arrangements are completed work will be started on the building. There is at present a frame house on the property, which, Mr. McKillip says, will be either sold for removal or torn down. This will clear the property for the beginning of excavation work.

Total Investment
It is estimated, according to preliminary figures in Mr. McKillip's hands, that the entire investment, including the new building and the site will be in the neighborhood of \$100,000.

In addition to the quarters for the post office, which must be in the new structure by January 1, 1928, as the government lease on the Bock property, which it now occupies, expires at the close of this year, the new building will contain three other store rooms, two of which, it is planned may be utilized as a double store if necessary. These will have all the modern facilities, and the entire building will be splendidly constructed and equipped.

Good Building Assured
It is a matter of gratification for all interested that Mr. McKillip, who is a well known realtor and property owner, is to erect another building in the business district. His large structure on Central avenue at Green Bay road, including several fine shops and stores with the delightful Highland apartments above, completed last year, is a fine example of the type of structure which he believes adequate to Highland Park needs, and also is assurance that the building he will erect to house the Highland Park post office and the other business which may be located therein will be similarly appropriate and substantial.
