THRILLS SUPPLANT FOOD FOR TOURISTS

Seeking New Experiences; Not Like Pioneers

estimation of the American traveling public, and in particular with that section of the public which goes traveling every summer, according to W. B. Lewis, superintendent of Yosemite National Park.

Every summer, in the opinion of Lewis as expressed in The American Magazine, the great American caratravelers sets out from vartions of the country, and its to be entertained and to be shown unusual things, not just to live in peace and comfort.

"Our ancestors roamed the forests for food," says Lewis. "Folks today roam them for thrills. Meeting a bear face to face is the most thrilling thing that can happen to a visitor here. people were watching falls and a bear came along, they would forget all about the falls and watch the bear every time. They might watch Yosemite fifteen minutes, but they would watch the bear as long as it stayed where they could see it.

This liking for his bears is common to all ages and both sexes, Lewis con-He considers these animals clowns that entertain visitors at the National Park, taking the place of stage folk who entertain them dur ing the winter months.

"No wonder people prefer bears to scenery," he concludes. "I like them best, just as the tourists do. They're so sort of human."

SEES 22,000 PUPILS COUNTY GRADE SCHOOLS

Supt. Simpson Looks for Fully That Number This Fall in at Opening

Fully 22,000 pupils in elementary and secondary schools will take up their classes Sept. 4, according to T A. Simpson, county superintendent of schools. That will be an approximate increase of 1200 over last year. Lake Forest schools and those in Highland Park open Sept. 10; rural schools open Sept. 4.

The increase last year over the year before had been 1125 in all the schools of the county; public and otherwise.

For the entire count, in elementary classes, were 12,338 against 12,034 for the year before. County high school registration reached 3594 3 months

Total for all public schools in the spring was 15,932.

The combined public and paroachial school enrollment in June, according to Mr. Simpson, was 20,720. Based on the last annual increase of 1125 it is believed by him that the number starting in September will be fully 22,000 for the entire county.

WRECKS PLANE, AVOIDS CRASHING INTO SCHOOL

Flyer at Great Lakes Risks His and Mechanic's Life Rather Than Hit Group

Captain Shearer of the Marine Corps, and his mechanic, Sergeant Steel, were slightly injured when the former wrecked the airplane in which they were attempting a take-off in order to avoid crashing into a hangar containing the personnel of the ground school, at the Great Lakes naval training station, about 8:30 o'clock Tuesday morning.

The official report of the accident showed that the pilot sacrificed the plane and risked his life and the life of his mechanic in order to prevent what might have been one of the worst calamities in the history of the local station.

The plane, a Curtiss Falcon land machine, was totally wrecked and is beyond any further use.

SENATOR CURTIS MAY SPEAK AT WAUKEGAN

Lake County voters will probably have a chance to hear the Republican side of the coming presidential election this fall from one of the two men best qualified to tell them of it. When the famous U. S. Military Band comes to Waukegan on October 24, under the auspices of the American Business club, the latter organization hopes to have Senator Charles Curtis, Republican nominee for vice-president, there to talk the same evening.

Invitations have been sent out to both Senator Joseph Robinson, Democratic nominee, and Senator Curtis, but it is highly improbable that Senator Robinson will be able to attend. Senator Curtis, on the other hand, is expected, for the club has just about completed negotiations on that score

MARRIAGES EXCEED RECORD IN COUNTY

Marriages exceeded all old records for August when the 503rd license was issued Wednesday afternoon month left it is believed that at least 40 more licenses will be issued.

RECOVER BODY OF YOUTH DROWNED AT MACKINAC

Young Captain of Thorne Donnelley's Motor Yacht ls Victim

The body of Johnston Power, 21 years old, one of the Sea Scouts who accompanied the John Borden-Field Museum expedition to the Arctic last year, and who was drowned in Lake Michigan off Mackinae Island Sunday, was recovered by searchers on Monday morning, according to word received by W. M. Solberg of Waukegan, attached to Great Lakes Nav al training station.

Power, who was the captain of the yacht Phantom II, slipped on the deck and struck his head on the railing while he was throwing a bucket of water overboard. Efforts to rescue him were of no avail.

The young man formed a large circle of friends while his boat was stationed near Great Lakes and he mingled socially in Waukegan and North Chicago. His sweetheart resides in Waukegan.

News of the recovery of the body was sent to Waukegan by Thorne Donnelley, of Lake Forest, owner of the yacht, for whom Power and a crew were bringing the motor cruiser from the Atlantic seaboard.

RECOMMENDS AWARD OF PAVING CONTRACT

Awarding of the paving contract I for Route 176, from Wauconda to Burton's bridge, which is located on the Lake-McHenry county line, was recommended this week by R. M. Lobdell, county superintendent of highways to the state highway department. It is believed that the contract will be awarded within a short

The recommendation contained one exception, the Gilbert tract, where objections have been made to the route. Obtaining of right of way for Route 173, from Zion to Rockford, will be started tomorrow or Wednesday between Zion and Millburn, he declared.

Back of Your Telephone

THE telephone user sees the telephone instrument I in his home or office and, beyond a vague idea that there is a place known as the "exchange," has little knowledge of what it means to give telephone service.

Back of your telephone and of each of the other one- and one-quarter million telephones operated by the Illinois Bell Telephone Company, stand the service and the organization of 30,000 trained, experienced and loyal men and women.

Operators, linemen, engineers, switchboard and cable specialists, business executives, collectors, stenographers, motor vehicle drivers, all these and more are represented in the army of telephone people, each with the common objective-adequate, satisfactory and continuous telephone service to the public.

The efficient loyalty and teamwork of the men and women behind these telephones are assurance that the service will be continuous and adequate every hour of the day and night-now and in the future.

> "A very great factor in the continued progress and improvement of telephone service is the intangible but quite real spirit of service that has become a tradition in the telephone business."

WALTER S. GIFFORD President, American Telephone and Telegraph Company, to National Association of Railroad and Utilities Commissioners
