FUNERAL SERVICES FOR MRS. SEYFARTH

AT PRESBYTERIAN CHURCH

Pastor Pays Tribute to Former Leader in Religious, Civic and Club Activities of This Community

Funeral services for Mrs. Robert Seyfarth, a leader in Highland Park's civic, religious and club activities, were held at the First Presbyterian church Sunday afternoon at three, the pastor, the Rev. Frank Pitt, in charge. The capacity of the church was taxed by the number of friends and acquaintances of the deceased who attended the services. Mrs. Seyfarth died at the Highland Park hospital last Thursday following an operation.

Pastor Pays Tribute
The following tribute to Mrs. Seyfarth was voiced by her pastor, the Rev. Frank Pitt, at the funeral services:

"Nellie Martin Seyfarth was born near Geneseo, Illinois, on September 10, 1878, and passed her childhood and girlhood there. She was married in 1903 and after some years of residence in Chicago moved to Highland Park in 1911. For seventeen years she had lived among us, years of strength and maturity, when the depth and richness of her nature came into full and free expression. These were the years of growth and service when, as wife and mother and member of the community, she made her impress on us all. She gave to us a quiet contribution of strength and guidance. We had accepted her gratefully, leaned upon her in hours of need, appreciated what she meant, and now that she has passed on we are left with a sense that a vital and gracious companion is no longer with us. Hers was a silent gift, unobtrusive."

SCHOOL TO BENEFIT FROM HIGHWOOD DAY

Receipts Will Be Used to Build Fence About Oak Terrace Playground

From the community standpoint, the annual Highwood day celebration was very much of a success, Harry Olander, chairman of the committee, has stated that the receipts were satisfactory; and, as stated before the celebration, will be used for the construction of a fence about the Oak Terrace school playground.

Mr. Olander stated that the success of the day was due to the generosity of the patrons and the willing cooperation and help of the volunteer workers.

At the dance, held in Fort Sheridan park Saturday night, Mr. Berg, an employee of Moore's cafe in Highwood, was awarded the Ford car that was the principal award of the day. The awarding had been deferred because all stubs were not in on time.

Ruth Moroney, Lost in Woods; Aids Own Searching Parties

Ruth, 7-year-old daughter of Chief of Police and Mrs. Edward Moroney of North Green Bay road, on her vacation enjoyed the thrill of being lost for several hours in a dense woods around Indian Lake, Wis., much to the discomfort of her parents and family, returned last Friday night after a 16 day motor trip through Wisconsin, Michigan and Canada.

The youngster wandered off into the woods and was gone for several hours. The alarms were spread and searching parties went out.

The child, in spite of her age, decided that if she reached the bank of the lake that she would have a better chance of being found. Wading through a marsh waist deep she reached a point where she could see the lake shore.

Her father had sent out a motor boat patrol and one of these boats discovered the youngster calmly standing on the beach waiting for someone to appear. She had been calm and unafraid throughout. Later she explained that if she moved from the shore she was afraid that she would not be found.

Moroney, since the beginning of time, has been taking camping trips such as this each year.

"I swear that I will never make another. Last year I promised that I was through. Every year I swear off but it seems when summer comes around we pack up the tent and start out," he said.

This driving all day and working far into the night to set up a camp and then fishing the next day leaves a person exhausted," he laughed.

190 HIGH SCHOOL STUDENTS BARRED

FROM OUTSIDE DISTRICTS

Influx of Pupils from Non-High School Territories Forces Officials' Action; Over 1100 Register

When the registration at Deerfield-Shields high school rose the first day this year from the first day of last year's figure of some 800 students to something in excess of 1100, The Board of Education decided to make an issue of a problem that has vexed the minds of the school board for a number of years.

It has been the custom for students not residing within the high school district to attend Deerfield-Shields; and at the end of the year the districts from which they came would pay a nominal figure for the tuition of their students. This figure in the past has approximated \$165, which it is estimated is about 50 to 60 per cent of the cost of instruction for each pupil.

Many from Cook County
Usually the influx of pupils from non-high school districts has been largely confined to towns within the two townships—Lake Bluff and North Chicago particularly—but this year, when other high schools found themselves overcrowded or refused to take pupils not belonging to their districts, many came to Deerfield-Shields from Wheeling and other points; and the time seemed appropriate for adjusting the tuition to a figure somewhere near the actual cost of instruction.

This week, consequently, 190 students have been refused admittance to Deerfield-Shields until the non-high school districts from which they come shall have arranged with the high school for adequate tuition. This the board has stated should be \$250, which does not represent the entire cost; but will enable the board to hire the additional teachers and secure the extra equipment necessary for the instruction of such a large number of extra students. Through an act of the legislature, passed last session, it is now possible for each district to raise the necessary amount for this increase, and the Board of Education feels that it is but fair to the taxpayers of the high school district that those living outside the district but enjoying its advantages should bear their share of the expense.

Not As Yet Over-crowded
Principal Sandwick states that the large number registered this year does not tax the physical equipment of the school beyond capacity. The school will be comfortably crowded, but the number can be taken care of, however, additional teachers will be needed.

It is felt that satisfactory arrangement will at once be made by those non-high school districts having students at Deerfield-Shields in order that no one shall belong out of school. It is felt that the advantages offered by a school of the type of Deerfield-Shields has been a factor in increasing their enrollment to such an extent among outlying towns. Some students living in Chicago or other cities having high schools, have preferred to go to Deerfield, but in each case of this kind, the student has paid the full \$250 tuition for the privilege.

The grammar school boards of Lake Bluff and Northbrook have been active in trying to reach a settlement so that their students may come back. It is said that John C. Baker, of Lake Bluff, a member of the non-high school district Board of Education has expressed himself in favor of the increased tuition, but it has been impossible, because of absence of some of the members, to get a quorum of that body.

Principal Sandwick has given his assurance that everything possible will be done and aid will be given by the high school faculty in helping students now barred to make up this work upon their reinstatement.

PATRICIA LUDWIG PROVES REAL ARTIST

Patricia Holloway Ludwig Five-year old Patricia Holloway Ludwig of 329 S. Green Bay road, has won for herself the recognition of opera-goers by the excellent manner in which she played the part of Mme. Butterfly's child in two performances of the opera, "Madame Butterfly," at Ravinia the past season.

Selected for the part last year from a large number of children who were advanced for the part, Patricia, because of her youth, was afraid to take the part. This year, however, she was eager to act, according to her parents.

HARVEY S. OLSON TO CAPTAIN PURDUE TEAM

Harvey S. Olson, graduate of the Deerfield-Shields high school is captain of this year's Purdue football team.

Olson played center on the Deerfield-Shields eleven for four years and was chosen on the all-star suburban teams for two years. His reputation preceded him to Purdue and he received personal attention from the coaches when he made his first appearance on the practice gridiron.

The Purdue captain is not as heavy as the usual run of pivot players. He will not scale more than 172 pounds in playing condition. His lack of weight, however, is no handicap as his aggressiveness, combined with his determination and knowledge of his position, makes him an extremely valuable player.

He is strong on defense, where he usually plays in a roving position. He is not drawn by fakes and seldom leaves his zone unless he is sure the runner will not be sent back through his position. He tackles with the accuracy of an end. He has the faculty to size up plays quickly and directs his men to the danger points with dispatch.

During the summer Olson has been getting into physical condition by working at Ravinia park and caddy-ing at the Northmoor Country club.

SCHOOLS REPORT SMALL INCREASE

REGISTRY NOT COMPLETE

Plans Approved for New Primary School Building on Green Bay Road; High School Total Is 1039

Registration Monday and Tuesday at the four grade schools of the city showed a slight increase in the number of pupils attending over a like period last year. The total for the city for the first two days of school was 1487. It is pointed out, however, that additional registration will be made probably all this week, and that the figures for the year will be much higher.

Elm Place
At Elm Place the registration was 806. In the upper grades there was little marked increase over last year's figures. But in the kindergarten a twenty per cent increase was noted, making it necessary to run two sessions, one in the morning and another in the afternoon.

Elm Place can now look forward to expanding from their present overcrowded quarters into an additional building that is to be erected on their property on Green Bay road. At a recent meeting of the school board, the plans and specifications for the new building were approved; and bids for its construction will be invited shortly. It is hoped that ground may be broken for the building sometime near October first.

Since the new structure will be designed to house the kindergarten, 6 rooms in the primary department, and three special rooms, it will greatly relieve the conditions at Elm Place and give opportunity for better work under more ideal conditions.

District No. 108
In District No. 108, the Ravinia school showed the greatest growth in registration. A total of 333 were enrolled there, which is an advance of 68 over a like period last year. At Lincoln the enrollment was 315, without any increase. The registration at West Ridge was 33, also without any increase.

Work on the addition to the Lincoln school, which was started in the early part of the summer, has progressed slowly; but school officials hope to be able to occupy the structure by Thanksgiving, perhaps a little before. The upper floor of the addition will be used for a music room and offices, the lower floor for 2 grade rooms.

Oak Terrace
The Oak Terrace school at Highwood reports a registration for the first days of 538, a considerable increase over last year. To accommodate the enlarged student body, it was found necessary to build three extra class rooms in the auditorium, and to engage an extra teacher. The teaching force there now numbers 18.

Deerfield-Shields
At the High School a total enrollment of 1039 was reported. This compares with 960 last year; a growth of 8 per cent.

Deerfield Grammer School
The Deerfield school enrolled 343 the first day of school. They expect, however, that the total will reach 375 before registration of late entrants is completed. The total for last year was 340.
