

BARRINGTON'S FALL FESTIVAL NEXT WEEK
Commercial, Industrial and Civic Exhibits Arranged; Side-shows, Carnivals Barred

Over at Barrington, where they lay claim to being the best known and fastest growing northwest suburb, they have been making plans all summer long for a Fall Festival to tell the world why they are entitled to a place in the sun.

The festival will be held the week of September 17-22, opening on Monday evening at 7 o'clock and closing on Saturday evening. Its purpose, according to the Barrington Chamber of Commerce, which is sponsoring the event is to advertise Barrington to herself and to her neighbors. The Barrington Chamber of Commerce has accordingly extended an invitation to the people of this community to go over to Barrington any night, or every night during the coming week to see what it is all about.

An exhibit of the commercial, industrial and civic activities of Barrington will be staged in a huge tent which will be pitched near the center of town. It is announced that over sixty exhibitors have contracted for space.

Fred High, a department editor of Joe Mitchell Chapple's magazine and a nationally known community builder, is to be present every night to lecture on some phase of community development.

The entertainment feature of the festival is apparently being well taken care of, for it is announced that six bands and orchestras have been engaged to furnish music. The Elgin Masonic Temple Band is to be there on Monday night, when the festival opens, and on succeeding nights there will be the Barrington Concert Band, the Bethel Commandry Bugle Corps of Elgin, a Little German Band, Stockyards Post American Legion Kiltie Band, and the Barrington Barn Dance Orchestra.

There will be no carnival, side-shows, gambling devices, or catch-penny schemes.

FIELD MUSEUM SHOWS MADAGASCAR RELICS

Interesting Collection From That Island Is Displayed; Some Details

Collections of ethnological material from Madagascar, obtained by the recent Captain Marshall Field expedition to that island, have just been placed on exhibition in one of the new halls at Field Museum of Natural History.

The expedition was led by Ralph Linton, assistant curator of Oceanic and Malayan ethnology. Field Museum authorities believe the collections are the best and most complete ever obtained from Madagascar. The present exhibit includes only part of the material gathered by the expedition.

Among the Madagascar objects now on display are implements and utensils of all sorts, weapons, jewelry, wood-carvings, ornamental iron work and rare textiles. The textiles are of especial interest, being woven from domestic and wild silk, cotton, hemp, raffia, banan fiber, and the inner bark of trees. The raffia cloths woven by the Sakalava tribe, decorated with elaborate designs made by the warp-dyeing process, have great artistic merit, and are the only ones in any museum of either America or Great Britain.

In the same hall with the Madagascar collection, the ancient civilization of India is represented by a collection of Buddhist sculpture, and later Indian and Jaina sculpture. The ethnology of the country is illustrated by copper, brass and bidri ware, weapons and shields, musical instruments, and a series of Singhalese masks from Ceylon. A tall brass temple of the seven worlds of Indian cosmology, occupies the center of the hall. This hall contains also collections illustrating the lives of the people of Korea, and the tribes of eastern Siberia.

MAY KEEP COUNTY POLICE THRU YEAR

Supervisor James Kelly of Lake Forest One of Those in Favor of Plan

The county highway motorcycle police, with a staff of four men under Sergt. George Heckinger, will be carried the year around by Sheriff Doolittle if possible, it was learned last week.

Several members of the board of supervisors, including James Kelly, of Lake Forest, a member of the jail committee, are in favor of keeping the motor corps throughout the year. The county board approved the outfitting of a squadron last June when it became apparent that something would have to be done to control traffic. The men were employed by the sheriff.

The full expense is borne by the county under an emergency clause allowing the sheriff to hire deputies in case of dire need.

While the income from the squadron has been far in excess of the expense the money has gone to the township road and bridge fund in which the fine was paid. Through this fresh law, according to supervisors, the force technically has not been self supporting.

The income has been derived principally from horse runners, drunks

drivers, and reckless drivers. There have been very few speeders taken. The question of expense, and not need of the corps, is the only matter under discussion, it is said.

Many families said to be denying themselves food to pay for motor trips, but it seems more likely that they are simply failing to pay the provision men for that food.

MARRIAGE LICENSES SET ANOTHER RECORD

First Nine Months Total for 1928 Exceeds Last Year's Total in Lake County

During the nine months of the fiscal year, starting December 1, 1927, and ending August 31, 1928, 3,904 marriage licenses were issued at the office of County Clerk Lew A. Hendee. This announcement was made by Deputy Joseph Stanczak, who has charge of this bureau. He says that during the corresponding period a year ago, 3,752 couples were licensed to wed here. Thus so far this year there has been an increase of 152 licenses over the same period last year.

A new record for licenses for the month of August was set this past month. Deputy Stanczak says that 549 couples procured marriage licenses here during the past 31 days. The previous record for August was 497, set last year. Thus 52 more licenses were issued this August than a year ago.

All records for the office of County Clerk Hendee were broken in June, it is recalled, when 643 licenses were issued, an increase of 59 over the previous high mark. There was also an increase in licenses issued in July of this year over that of the same month last year.

"It looks to me at this time as if a new record for marriages in Lake county is bound to be set this year," said County Clerk Hendee.

LATE PROCEEDINGS IN PROBATE COURT

Several Local Estates Up Before Judge Decker in Waukegan Court Room

Cyrenius A. Heydecker, Wadsworth who died a short time ago left an estate of \$7,600, according to the petition for probate of will filed last week in the Probate court. The petition showed an estate of \$5,100 personal property and \$2,500 real estate. The estate goes to a sister, Emma A. Heydecker.

The final report was approved in the estate of Adolph Kraus, North Chicago, and distribution ordered.

Letters of guardianship in the estate of Alfred Kraus, minor, North Chicago, were issued to Meta Kraus. The bond was set at \$1,000.

Petition for probate of will in the estate of Jane W. Young, Highland Park was filed and hearing set for Sept. 17.

The administrator in the estate of Charles D. Chappell, Waukegan, was authorized to sell stock.

In the estate of Willard L. Munro et al, minors, Highland Park, the final report as to Willard L. and David A. Munro, was approved.

Heirship was established in the estate of Victor J. Ellis, Waukegan. The final report was approved in the estate of Hilda Lystlund, Waukegan, and distribution ordered.

Hearing on the final report in the estate of Gottlieb J. Zaehner, Zion, was continued to Sept. 6.

The final report was approved in the estate of Richard F. Sandwick, Highland Park and the estate closed.

The executrix in the estate of William Stamford Pearce, Waukegan, was authorized to make settlement of accounts due estate.

The will in the estate of Peter A. Lux, Wadsworth, was admitted to probate. The estate of \$3,000 is to be divided between his two daughters. Letters testamentary were issued to Lester B. Murray and his bond set at \$6,000. Proof of heirship was taken.

So far no one has claimed from the condition of Europe nearly 10 years after the war closed, that making war is a good way to produce national prosperity.

LEW HENDEE HONORED AT STATE CONVENTION

Elected Secretary of Association for County Officers; in Line for Presidency

Lew A. Hendee, county clerk, was named corresponding secretary at the annual convention of the State Association of County Clerks, Probate Clerks, Treasurers, Records, Circuit Clerks, Auditors and Supervisors at Moline last week.

For nine years he had been treasurer. The move upward in the line makes him eligible for the presidency. In addition he was named as a member of the executive and entertainment committee.

Supervisor Thomas E. Murphy, Shield township, who is chairman of the county board, was selected for the executive committee.

A resolution, demanding that the state increase the tax rate on the \$100 valuation from 25 to 40 cents, will be presented when the legislature goes into session.

Ottawa won the next convention.

Those who attended besides Mr. Hendee and Mr. Murphy were Probate Clerk John R. Bullock, Deputy County Treasurer Lynn Harvey and

Supervisors Frank Cory, Waukegan; E. A. Ficks, Lake Zurich, and Frank Stanton, Ingleside.

NUMBER OF PERSONS KILLED ON CROSSINGS

More Than 2,300 During 1927, But Fewer Than in Previous Year, Claim

During 1927, 2,371 persons were killed at grade crossings, and 6,613 were injured, according to information received by the accident prevention department of the Chicago Motor club.

A report just completed by the American Road Builders' association in co-operation with the Interstate

Commerce commission shows that 206,533 unprotected grade crossings existed at the beginning of 1927, while there were only 27,747 protected crossings. Of the latter, 6,148 were equipped by gates, 7,760 by watchmen, 6,427 by audible and visible signals; 5,308 by audible signal only, and 2,204 by visible signal only.

Notwithstanding this apparently high rate of fatalities, the safety section of the American Railway association recently issued figures tending to show that the number of persons killed in grade crossing accidents in 1927 was 4 per cent less than in 1926, although there was an increase in the number of automobiles on the highways.
