LOCAL REASONS FOR VOTING

There are many reasons for voting in this community. It is not merely necessary to choose competent and qualified presidents, congressmen, governors and legislators, but our people need to form the voting habit for the benefit of their home towns.

The total vote of a town, in proportion to its population, gives some idea of what kind of a town it is. If the vote is always light, the chances are that things go poorly in that town. The little use of the ballot indicates a slack citizenship, which will make itself felt in many ways.

A town that gets out a good vote shows that it has civic spirit. Its citizens would be apt to look after their municipal affairs, and see that taxes are reasonable, and that modern advantages are provided. The town that gets out a large vote looks to people who hear the returns like a progressive and advancing one.

FARM LANDS IN DEMAND

An increasing demand for farm lands from every part of the country is noted in a symposium just published by the Federal Land Banks. Without exception, the presidents of these banks report a turn for the better in the situation and a gradual increase in the demand for farm lands.

This applies not only to one part of the country, but to the entire country. It indicates that the tide has turned and that the agricultural outlook is encouraging.

The low tide for farm land values was reached during 1926-27, but since that time there has been a gradual increase in the demand for farms and those who are purchasing have a larger amount of cash to make the initial payment on the land. Under these conditions young men in the rural districts are less interested than formerly in going to the industrial centers, while a fair percentage of young men in industrial centers are considering with their families the advisability of returning to the farm.

This favorable report by the Land Bank would indicate that farming will be looked upon with more favor during the next five or ten years, and that the returns to the farmer for his labor will be quite favorable as compared to the average workman in other lines of activities.

MARTIN'S PUNTING IS FEATURE OF BIG GAME

In the Lake Forest-Chicago U game last Saturday the punting of "Tillie" Martin, former Deerfield-Shields grid star, who is attending Lake Forest was a feature. He made two 60-yard punts, the longest made off Stagg field this year. Lake Forest won the game, 3 to 0, but Coach Stagg substituted several of his first string men to avert defeat, fans report.

CONTINUE LENGTHY CHICAGO ENGAGEMENT Collegiate Comedy Now in 9th Month At Selwyn Theatre

"Good News," that red hot collegiate musical comedy based on football is now in its ninth month of its engagement at the Selwyn theater, Chicago.

As many of our readers are already aware, the story of this highly entertaining musical comedy is laid on the campus of a co-ed college and any under-grad or alumnus cannot help but be highly enthused and entertained by the many true to life situations which are plentiful interspersed with college humor.

The story deals with a football hero who is much more of a star on the gridiron than with the text-book and when conditions arise that make him look dubious as to the said hero's ability in his astronomy examination, thereby preventing his playing on this team in the most important game of the season, the indulgent professor, who still has "a young man in football season," passes on the examination on point to the good.

It is "Good News" that made famous "The Varsity Drag," "Lucky in Love," "The Best Things in Life Are Free," "Just Imagine," "Girls of the Beta Phi," "Good News" and many others. In fact there are enough musical hits in "Good News" to supply three or four of the average musical comedies.

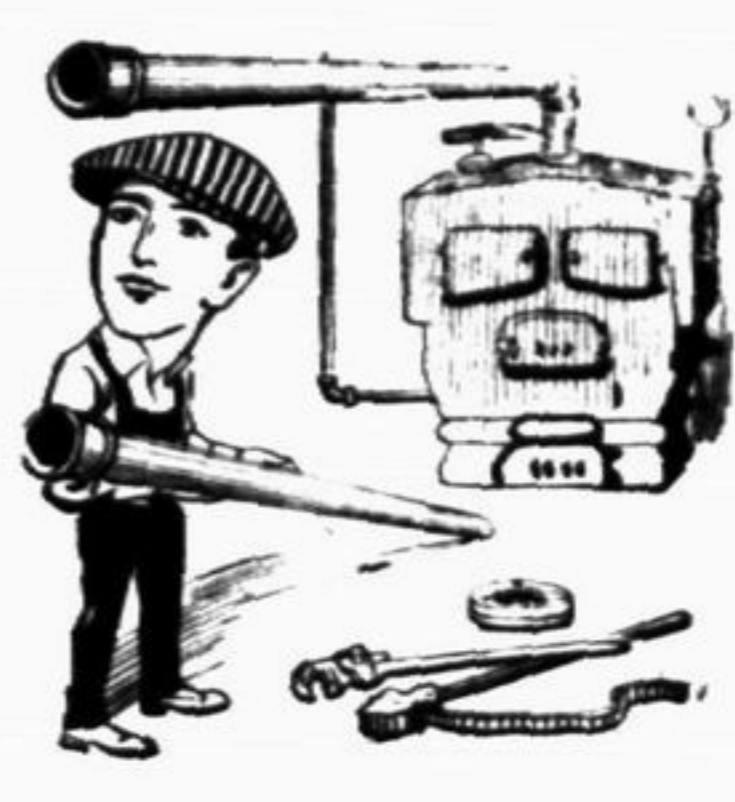

The mere fact that "Good News" has played at the Selwyn theater to capacity houses since last February, should be sufficient proof that when it comes to Chicago this highly entertaining, fascinating and fast-stepping show should be placed on your shopping list. The same cast of players

contributes to the fun and unfolding of the story, each and every one fitting their roles with a glove-like nicety. Special attention and great care are given to all mail orders.

Soviet Russia is said to be facing an acute food shortage. Maybe some of these days it will be up to capitalistic Uncle Sam to help feed 'em again.

Bombings in Buenos Aires are blamed on to communist activities by the police. "Liberals" in the United States will doubtless charge it all to Uncle Sam's "imperialist" policy.

Scientists say that the seventeen-year locust is due to appear in Washington, D. C., this summer. Wonder what Mr. Locust will think of the change in women's styles since he went to sleep?
