**HIGHWOOD LOSES TO LOGAN SQUARE SUNDAY**

In an interesting, hard fought game last Sunday, the Highwood football team lost their first game of the season against the Unique A. C. of Logan Square, Chicago, 13-0.

The defeat appeared to be a let-down after the hard fought commendable game against Ft. Sheridan the Sunday previous. The Uniques' were a small, fast, hard hitting team, and scored their first touchdown on long end runs, and well completed passes. The second touchdown was the result of a Highwood pass, unprotected, intercepted by a Unique player, and an open field ahead.

Sunday, Nov. 4, Highwood meets Deerfield on the Highwood field, and the bitter rivalry promises a hard fought game for the customers. Deerfield has shown up well, showing plenty fighting spirit and won over Crystal Lake Sunday, 24-0. A very large turnout is expected for the Deerfield-Highwood game, and the report is out that the crowd will receive their money's worth.

**ACTIVE MONEY MAKES ACTIVE BUSINESS**

We wish to bring this fact home to every man in our community as a matter affecting all of us—Farmer, Merchant, Workman, everyone.

Active money—we mean money that is kept in circulation, or deposited in the local bank—not money that is hoarded, or put away in a safety vault or hidden.

When this money is in our bank it becomes what is called "working capital" that the bank can loan to our own people; this will keep business humming and bring prosperity.

Buy at home and let's build up our own community.

**GRAFF ZEPPELIN USES VEEDOL PRODUCTS**

**Tide Water Product Wins Place as Lubricant for Monster's Motors**

One American product played a part in the flight of the Graf Zeppelin from Germany to America.

The Tide Water Oil company announces receipt of official word from Dr. Hugo Eckener, designer and commander of the airship that the world wide competition among manufacturers to furnish the oil for the Zeppelin's motors has ended in the choice of its product, Veedol, an oil made entirely from Pennsylvania and other paraffin base crudes.

Tide Water entered the competition to furnish the motor lubricant for this gruelling flight after Veedol had been selected by Commander Byrd for use on his expedition to the South Pole. Its engineers finally induced Dr. Eckener to try the oil on the Zeppelin's recent test flight. The five Maybach motors functioned perfectly and as soon as they had been thoroughly examined on the return to Friedrichshafen. Dr. Eckener informed Tide Water's German representatives that Veedol had won the honor for an American product of participating in this historic German adventure.

An ample supply of the oil already has been assembled at the Friedrichshafen base and upon receipt of word of its choice from Dr. Eckener immediate arrangements were made to rush enough Veedol for the return journey to the Lakehurst airbase where it will be held safe from any possible contamination until it has been pumped directly into the Graf Zeppelin's supply tanks.

This product distributed locally by Elm Place Service Station.
