

### ADMIRAL CRAVEN ON INSECTION TRIP

#### SUBMIT REPORT OF TOUR

#### Makes Inspection of Naval Reserve Training Squadron at Harbor Springs, Mich.; Ships in Fleet

Rear Admiral Thomas T. Craven, U. S. Navy, Commandant of the Ninth Naval District, who, accompanied by his aide, Lieutenant Burton B. Biggs, U. S. Navy, made an inspection of the Naval Reserve Training Squadron of that district at Harbor Springs, Michigan, recently has submitted the report of his inspection to the Secretary of the Navy.

#### Vessels in Fleet

The vessels comprising the fleet, listed in the order of their inspection; the naval reserve units manning them; and their commanding officers, are as follows: N. S. S. Wilmette; Sixth Battalion, including Headquarters Division, 25th, 26th, 27th, and 28th Divisions, of Chicago, Illinois; Captain E. A. Evers, U. S. N. R., Commanding; Senior Officer Present; U. S. S. Wilmington; Twelfth Battalion, including Headquarters Division, and 29th Division, of Milwaukee, Wisconsin; 33rd Division, of Madison, Wisconsin; and 34th Division, of Green Bay, Wisconsin; Captain A. F. Nicklett, U. S. N. R., Commanding; U. S. S. Hawk; Fourth Battalion, including Headquarters Division and 18th Division, of Indianapolis, Indiana; Lieutenant O. F. Heslar, U. S. N. R., Commanding; U. S. S. Dubuque; Eighth Battalion, including Headquarters Division, 40th and 41st Divisions, of Kansas City, Missouri; Lieutenant Commander R. F. Brodhead, U. S. N. R., Commanding; and U. S. S. Paducah; Ninth Battalion, including Headquarters Division, 45th and 46th Divisions, of Minneapolis, Minnesota; Tenth Battalion, including Headquarters Division and 49th Division, of Duluth, Minnesota; Lieutenant Commander A. O. Rabideau, U. S. R., Commanding.

#### First Since Perry

The flag of Admiral Craven was hoisted on the U.S.S. Wilmette on his arrival and saluted with thirteen guns. This ceremony was unique in that it was the first occasion, so far as history affords record, that a flag officer has flown his flag in a fleet on the Great Lakes and been saluted since the days when the distinguished hero, Commodore Oliver Hazard Perry, U. S. Navy, contributed a brilliant page to naval history.

The inspection included both personnel and material of the vessels of the fleet. The vessels engaged in tactical maneuvers and held man overboard, fire, collision, abandon ship, fire and rescue, and other emergency drills.

Commander Willis W. Bradley, U. S. Navy, of the Naval Reserve Personnel division of the Bureau of Navigation, Navy Department, was cruising with the Naval Reserve Training Squadron and was present during the last two days of Admiral Craven's inspection.

#### No Guns

Although a naval squadron, none of its vessels carried guns. According to Admiral Craven, however, what this squadron lacked in weapons was made up for in the enthusiasm, fine spirit and efficiency manifested by its well trained personnel.

In his report Admiral Craven made specific mention of the favorable impression created by the keen interest displayed by both officers and men participating in these maneuvers. He stated that with the development of communications it was highly probable that the near future would see naval reserve flying units mobilized and participating with their seaplanes in the annual maneuvers of naval reserve vessels.

#### Joint Training

Admiral Craven also expressed the view that he was hopeful of seeing arrangements soon perfected whereby there may be training jointly participated in by both reservists of the Sixth Corps Area of the Army and of the Ninth Naval District of the Navy, including the air branches of the two services. Considering the great area of the Midwest, its large population, and the fact that this section furnishes a large proportion of the reserve personnel required for both services, he asserted that such joint participation would vastly increase interest in, and the value of, reserve activities of the Army and Navy.

#### FEWER MARRIAGES IN OCTOBER THIS YEAR

Marriages for October took a decided drop compared with October 1927 it was learned today from Joseph Stanczak, deputy county clerk. There were 431 licenses issued to couples this year and 492 for the same period a year ago or 61 more. Since last June marriages here have been on the decline.

Some anti-Volstead politicians say that there is just as much liquor here as ever and that it's just as easy to get. Then how do you explain the tourist rush to Canada each year?

The fact that people in the old days believed in witchcraft doesn't seem so ridiculous when you remember that there are thousands of people nowadays who believe in bootleggers.

### ILLINOIS PLAYS OHIO AT URRANA, NOV. 24TH

Ohio State and Illinois, hereditary football rivals, will meet in the Illinois stadium in the last game of the season November 24 in what is certain to be one of the most important games in the Big Ten.

Ohio State, providing it defeats Iowa November 10, will come to the stadium undefeated by a conference rival and victory will assure the Buckeyes the championship.

Illinois travels to Indianapolis Nov. 10 to play Butler and Nov. 17 to Chicago to meet Stagg's Maroons.

Stay-at-homers are looking forward to the Ohio State game and thousands will travel here from all parts of the state and nearby Indiana. The excitement of homecoming made many fans defer booking their seats for the game but now the ticket office is going at a merry clip, filling hundreds of mail orders daily.

C. E. Bowen, ticket manager, announces that the sale is well on its way toward the 25,000 mark. From now on it will be accelerated but thousands of most desirable seats will be available, since the stadium seats 65,000. There are no restrictions of any kind upon the purchase of tickets.

### BEGIN WORK ON ROUTE 173; BEGIN AT ZION

#### Connects With Sheridan Road at Twenty-First Street; Street Widened

Actual work on construction on State Route 173 (Zion to Rockford) was started in Zion last week, when a large gang of men was put to work by the Homer Construction company of Omaha. Twenty-first street, at its intersection with Sheridan road, is being torn up, preparatory to the work of paving. Mr. Peck of the state highway engineer's office is supervising the work and will remain on the job until the highway has been completed to Rosecrans, a distance of six miles.

The contractor today expressed the opinion that he would be able to put in at least one mile of pavement before cold weather arrives.

Twenty-first street is to be paved to a width of forty feet for a distance of five hundred feet west of Sheridan road. For the next two hundred feet the pavement will taper down to a width of twenty feet, the regulation width of the state highway.

For a distance of five hundred feet north and south of Twenty-first street Sheridan road will be made eleven feet wider.

### PET SHOW OF INTEREST TO NORTH SHORE PEOPLE

From all parts of Chicago and its suburbs entries of all sorts of pet animals are pouring in for the National Pet show, in which the children and adults of North Shore towns have been invited to participate. The show will be held at the First Regiment Armory, 18th street and Michigan avenue, November 15 to 18, inclusive. Dogs, cats, monkeys, birds, guinea pigs, white mice, turtles, rabbits, fish, foxes, goats and all other small household pets will be on view.

Boy Scouts, Girl Scouts, Y. M. C. A. juniors and many other organizations of boys and girls, as well as adults, are participating.

First among the entries to be received was "Millie," the female donkey, attached to the Chicago Opera company. "Millie" is known to thousands of opera lovers for her work in "Pagliacci" and other operas. The donkey is the pet of the opera and therefore eligible for the show.

Mrs. Irene Castle McLaughlin of Deerfield, has entered several "re-patriated" dogs from her dog refuge, the "Orphans of the Storm." Mrs. McLaughlin wants to develop a love for and appreciation of all pets. Mrs. Henry Wohler of 907 S. Kedzie avenue, has entered a 23 pound cat. Mr. A. L. Gilmore of 2848 Milwaukee avenue has entered a five-legged dog and a lively monkey. Five chinchilla rabbits have been entered by J. B. Henderson of 6046 Harper avenue.

### IS CRUSHED TO DEATH AGAINST STEAM SHOVEL

#### Libertyville Many Caught in Jam at Zion and Dies in Few Minutes

Caught between the coupler of a steam shovel and the end of a dump car, Harry Bietzel, 30 years, of Libertyville, and employed as a fireman on the steam shovel, received injuries at a gravel pit, several miles north of Zion at 3 o'clock last Thursday afternoon and died a few minutes later.

The accident occurred when Bietzel stepped from the rear of the shovel to platform of the car on which it was stationed to adjust the coupler on a dump car which was immediately behind the machine. The steam shovel which rests on rails on the flat car backed up and he was caught between the rear end of the machine and the end of the dump car.

Remember the good old days when the people in the rural districts had so much money they could afford to buy a gold brick once in a while.

### Civic Calendar

Sponsored by Ossoli Mrs. F. P. Lewis, Tel. H. P. 1880.

Thursday, Nov. 8, 9-12; French classes, Highland Park Woman's club, M. Marion Jean, instructor.

Thursday, Nov. 8, 10:30 a.m., Ossoli club. Current events and book reviews. Mrs. Anthony French Merrill.
