

**CHRYSANTHEMUM SHOW BEGINS NOVEMBER 12**

**National Exhibit at Stevens Hotel; North Shore Folks Interested**

North Shore flower lovers and flower growers are interested in the fact that for the first time in seven years, Chicago will have a flower show this fall. On Monday, Nov. 12, at 2 o'clock in the afternoon, the Grand Ball room of the Stevens hotel will be the mecca of all flower lovers of Chicago and surrounding towns. At this time will be ushered in, the national chrysanthemum flower show; in an unsurpassed setting, with ever changing lighting effects flooding the fifty thousand blooms and plans which will be on display from all over the United States. The entire huge ball room of over 14,000 square feet of space, will be like a bower of flowers, which with the changing lighting effects will create a scene of beauty never before attempted.

The Chrysanthemum Society of America is staging its annual show in Chicago for the first time. The Illinois State Florists' association is staging its annual flower show in connection with the 'Mum' show, which will give to Chicago a national show in the full sense of the word. Noted flower specialists from all over the United States are preparing prize blooms for display and in competition with other growers. Eric Buchholz, the noted landscape artist is just back from Europe, full of new ideas on flower show staging. Mr. Buchholz promises the public, he will stake this show in an entirely different fashion than heretofore attempted; taking the best ideas of the famous London flower show and the huge show staged annually in Berlin and incorporating them into the Chicago show, so that all the blooms exhibited will show to the best advantage and so they may be viewed by the public at their best.

**Slip Knots Preferred**

A lover's knot, otherwise known as the tie that binds, is the only kind a real sailor hasn't much interest in.—Farm & Fireside.

**BOY LONG MISSING FOUND IN NEBRASKA**

**Harold Appley Working on Farm Red Cloud, His Mother Is Informed**

After many days of anguish on the part of Mrs. Lulu Appley, mother of the boy, Harold Appley, 14 years old, of Libertyville, who had been given up as dead, was last week located on a farm near Red Cloud, Neb., where he has been employed as a farm hand.

For days while friends and relatives carried on a search the mother of the boy mourned him as dead. She was of the belief that the boy would not remain away from home if he were alive.

The youth left home early in September. He had just returned from a visit with relatives at Napanee, Neb., and had expressed a desire to remain in that section of the country. Knowing his fascination for that part of the west the search for him was directed to that part of the country without avail.

Several weeks ago the mother was informed that the youth was employed in a Missouri town and she hastened there. A few hours after she has boarded a train for Missouri word came to Libertyville that the youth there was not her son. She continued on the trip unaware of this

only to meet disappointment at its end.

Location of the youth in Nebraska was affected by Dr. J. L. Taylor, county coroner, who sent postcards to coroners in several western states asking their co-operation in the search.

**WOMEN INJURED IN AUTO CRASH SUING**

Two women, seriously injured in an accident September 3, last week filed suits for \$10,000 damages each through Attorney J. A. Miller in circuit court against Walter Gibbs, Highwood, the auto driver they blamed for the collision.

The women, Stella Hendricks and Zenobia Thornton, according to Mr. Miller, were riding with M. Lewis near Eleventh street and South Park avenue, North Chicago, the evening of September 3 when the Gibbs car crashed into them.

The impact of the collision hurled both women from the car, according to the attorney, who stated that Stella Hendricks received a fractured leg, hip injury and injury to her eye, while Zenobia Thornton received a skull fracture, broken arm and injury to her knee cap and leg.

The Thorntons and Stella Hendricks live in Waukegan.

**FIRST KILLING FROST OCT. 29; WEATHER SURVEY**

**Observer Tells of Kind of Weather in Lake County in Last Month**

The first killing frost of the year that came on October 29, hit Lake county eight days sooner than in 1927, according to John O. Laux of Waukegan, government weather recorder for this district.

The highest temperature during the month was on the 10th, when the thermometer registered 82 degrees. The highest temperature during October of last year was recorded on the 2nd when the thermometer showed 84.

The lowest temperature last month was 22 degrees, recorded on the 30th. In October last year the coldest weather was recorded on the 9th when the thermometer dropped to 33 degrees.

The mean temperature for last month was 50.1 degrees as compared to 55.5 degrees in the same month last year.

Mr. Laux's report for the month shows 13 cloudy days, 10 clear days and 8 partly cloudy days. In October a year ago there were 10 cloudy days, 15 clear days and 6 partly cloudy days.

The rainfall for the month amounted to 3.43 inches as compared to 3.33 inches in October of last year.

The report shows also that there were thunderstorms on October 5th and 13th.

**Help Us to Give Good Service**

IT would doubtless surprise most telephone users to learn that the Illinois Bell Telephone Company is obliged to repair hundreds of telephones every year which are put out of order by being dropped.

Of course, the repairs are made promptly no matter what happens, but the user is necessarily deprived of his service for at least a short time when such an accident occurs and this might be the time when the telephone would be most needed. It is therefore in the subscriber's own interest that we suggest that care be taken not to damage the instrument.

Windows left open in summer, admitting a sudden rain storm, are also responsible for a great many cases of trouble. Occasionally a bottle of ink or a glass of water is overturned, wetting the telephone cord, and this also causes trouble.

Subscribers will aid us in giving them the best service by taking good care of the equipment.
