## Y. W. C. A.

The Y. W. C. A. is glad to publish the following contributions received since the last issue of the Press:

\$25—Community Shop; \$10—Mrs. S. Sidney Stein, George A. Schofield, Miss Helen L. Whitney; \$2—Mrs. C. J. Dyer; \$1—Mrs. Benj. Buckingham; \$5—Mrs. J. R. Julin.

The board of directors of the Y. W. C. A. met for its regular monthly meeting Tuesday morning. In the absence of the president and first vice president, Miss Rebekah Pocock, second vice president, presided. The resignation of Mrs. W. A. Alexander as chairman of the house committee was accepted. Mrs. A. S. Burdick was elected to the chairmanship of that committee. The revision committee, which has been a special committee of the board was made a standing committee with Mrs. E. S. Hall as chairman. A committee which will nominate the candidates for election to the board of directors at the annual meeting of the Y. W. C. A. in January was appointed. This committee is composed of Mrs. L. C. Gatewood, chairman; Mrs. F. J. Horn, Mrs. Raymond Flinn, Mrs. Ross Marvin, Mrs. Harry Pier, Mrs. Louis Sinclair and Mrs. John R. Todd. A discussion of Y. W. C. A. organization and policies was led by Miss Esther Huckins, national secretary of the Y. W. C. A.

Miss Dorothy Hubbard, national industrial secretary of the Y. W. C. A. spoke to the members of the Friendship club at the meeting Thursday night. She told of the Summer school for Industrial Workers at Wisconsin university and of the Conference of Household Employers and Employees held last month in Washington. Plans were made for the club's Christmas party and for the service work of the club. Refreshments were served by the hostesses, Miss Anna Soumi and Miss Esther Soumi.

The B. Y. S. club met Tuesday evening at the Y. W. C. A. Following a short business meeting the club was addressed by Doctor Blanche Mayes Elfrink who spoke in a beautiful way on the subject "Ourselves and Our Sex." Mrs. Frank J. Horn and Mrs. Robert R. Bosworth were guests at the meeting.

The class in hand craft conducted by Miss Jessie Webster continued its work. The hostesses for the evening were Mrs. Charlotte Sten and Miss Anne Moran. A committee of Grace Newman, Marguerite Noerenberg, Anne Moran, Catherine Radcliff and Bertha Hackenberg was appointed to plan the entertainment for the Christmas party, which will be given by the Friendship and the B. Y. S. clubs on Tuesday evening, Dec. 18

at the Y. W. C. A. A committee appointed by the presidents of the two clubs, Miss Anna Soumi and Mrs. Vera Whitcomb, will be in charge of the party. A ceremony "The Hanging of the Greens" whereby the Y. W. C. A. building will be decorated for the Christmas season will be a feature of the evening.

The Live Y'er Girl Reserves of Highland Park and the High school Girl Reserve club of Lake Forest entertained the faculty of Deerfield-Shields high school at a party Monday afternoon in the English club room at the school. A regular Girl Reserve meeting, presided over by Catherine Preston, president of the Lake Forest club, was held. Florence Glader, president of the Highland Park club gave a history of the Girl Reserve movement. A group of Girl Reserve songs was given by the members of the two clubs. Professor David Maynard, of the Lake Forest university faculty and a member of the American committee of the League of Nations spoke on "Geneva, the International City."

The Girl Reserve Clubs are to have their Christmas party Monday afternoon. A Christmas tree for the birds will be decorated in the garden of the Y. W. C. A.

The High School Girl Reserves will bring their gifts, two pairs of stockings filled with candy, fruit and toys, for the children of Erie chapel, to the Y. W. C. A. on Tuesday afternoon.

The Look Out Girl Reserves will entertain with their monthly dinner, prepared by the girls, on Wednesday. There will be an exchange of Christmas gifts among the club members. Gifts which the girls are taking to Erie chapel are to be brought also to the meeting.

On Saturday, Dec. 22 the Live Y'er and Look Out Girl Reserves are planning to take their gifts to Erie chapel and distribute them to the children.

The Girls Reserves and the Camp Fire girls of the city are planning to sing Christmas carols at five o'clock on Christmas eve. A party for the two groups will be held in the afternoon at the Y. W. C. A.

The class in Danish gymnastics under the direction of Miss Agnes Holst will close this term of lessons on Monday night, Dec. 17. The class invites anyone interested in seeing their work to come to the Y. W. C. A. Monday evening at eight-thirty.

## VLADIMIR HOROWITZ IN PIANO RECITAL

At New Trier High School, Winnetka, Wednesday Evening, Dec. 26

Vladimir Horowitz will give a piano recital in Winnetka at the New Trier

High school gymnasium on Wednesday evening, Dec. 26 at 8:30. This concert in one of the Artists' Recital Series, sponsored each year by the Winnetka Music club. In the past these recitals have been limited to season-ticket holders. But, because of the unprecedented demand for tickets, due to the fact that Mr. Morwitz' Chicago recital is completely sold out, the Winnetka Music club are presenting the concert in the large gymnasium rather than in the smaller auditorium where their recitals are usually given and are permitting the sale of tickets to the public.

The gymnasium is five minutes' walk, (two sort blocks east and one north) from the Indian Hill stations of the C. & N. W. Ry., and the North Shore Milwaukee Electric, Shore Line Division. The latter road will make special provision for carrying passengers to and from the concert by trains leaving the Adams and Wabash station at 7:15, 7:18, and 7:35 p. m. Tickets are to be had at Gsell's drug store in Highland Park and Kraft's drug store, Lake Forest.

## GHOST OF 2-CENT GAS TAX PROWLDS

### County Board Figures How to Divide Up Pennies Taken From Motoring Public

It was indicated this week that the Lake county board of supervisors during its present session will go on record in favor of a state gasoline tax of two cents and make a recommendation to this effect to members of the legislature of this district. A resolution will probably be presented and passed this week.

County Clerk Lew A. Hendee informed the board Tuesday that copies of resolutions passed by other county boards throughout Illinois recommended a gasoline tax of three cents, had been sent to him. The resolutions were turned over to the resolution committee to investigate and report back at this meeting.

The resolutions favoring a tax of three cents provide that one cent go to counties, one cent into the state treasury, one-half a cent to the state road and bridge fund, and one-half cent to the treasuries of cities and villages.

For 2 Cent Tax  
Some of the board members Tuesday said they thought this division would be best, but most of the board expressed the opinion that at the most the gasoline tax should not exceed two cents. Some said they did not believe in the tax but most of the board members seem to be in favor of a tax of some kind on gasoline.

The gasoline tax which was in effect in Illinois until the Supreme

court ruled the law unconstitutional was a two-cent tax and it is the belief of political leaders that the legislature will again pass a two cent tax. The law was held unconstitutional because of a legal technicality.

## DEERFIELD HEAVIES LOSE TO HARRISON

### Show Some Speed in Contest With Chicago Team; Show in Third Quarter

Deerfield's heavyweights looked good while losing to Harrison's majors 25-18, Friday night. Weiner and Myszy led the scoring for Harrison with four baskets and a free throw apiece, and "Doc" Bleimehl and Jack Thomas gathered six points apiece for Deerfield. It was a fast, well played game.

The first quarter ended with the score 4-3 with Harrison on the long end. Both teams were guarding closely, although several shots by both teams just missed counting. In the second quarter, the game speeded up a lot and Bleimehl and Thomas brought the score to 13-10 in Deerfield's favor. Deerfield passed rings around Harrison in that period and had they kept up that pace it would have been a different story at the end of the game.

Team Slows Up  
In the third quarter, however, Deerfield was rather sluggish at the start and couldn't seem to get going. Myszy and Weiner dropped in three goals apiece, and Chelnek scored a free throw. While all this was going on, Seyfarth dropped in two field goals, which was all the scoring done by Deerfield in that period.

Harrison's heavies then opened up with that baffling stalling. They kept the ball down at their own end of the floor and were content to hold their lead. Petruiliatis' free throw was the only score in the entire period.

Player	G.	T.	P.
Harrison (25)	4	1	1
Weiner, L. If	4	1	1
Dorfman, R. F., If	1	0	3
Nathanson, R. F.	2	0	0

## GARDEN STUDY CLUB MEETS DECEMBER 19

### To Start Scrap Book. Members Asked to Bring Clippings

The Highland Park Garden Study club will hold the last meeting of the year Wednesday, Dec. 19 at the home of Mrs. Thos. F. Dawson, 692 W. Park avenue. At this meeting a garden scrap book will be started. Members are asked to bring a clipping contribution for the book.

The business meeting was held in November at the home of Mr. Dwight Davis, at which time the officers for the year 1929 were chosen. They are, President, Mrs. E. T. R. Murfey; vice president, Mrs. Tom Moore; secretary, T. F. Dawson; treasurer, Mrs. Frederick Funk; program chairman, Mrs. J. S. Weinberg.

## A Valuable Asset The Confidence of the Community Are We Deserving of It?

This bank has served this community faithfully and uninterruptedly for over a quarter of a century.

It has provided a complete banking house and equipment, competent and experienced management, courteous employees, and a capital structure of over one half million.

The ten thousand accounts with deposits of over four millions would indicate that surely we are deserving of that valuable asset — the confidence of this community.

## ATTENDS CHEVROLET SHOWING IN CHICAGO

### William Ruehl to Have New Models Here About January 1

Wm. Ruehl of the Wm. Ruehl & Co. who attended the advance showing of the new Chevrolet six cylinder car in Chicago, was enthusiastic in his praise of Chevrolet's new product and of the public reception showered upon it at the Chicago showing.

"Thousands attended the showing daily, and I had the opportunity of noting the most genuine demonstration of crowd enthusiasm it has ever been my privilege to witness," Wm. Ruehl said. "If the public's preference for the new Chevrolet is to be indexed by what I observed from the Chicago crowds, I feel certain that the outstanding Chevrolet of Chevrolet history is destined to go down in automotive history as one of the most sensational of all sales successes."

"Chicago visitors to the showing were outspoken in their admiration of the expensive "big car" appearance of the new models. They were pleased with the new color combinations and with the elegance of the fittings and upholstery. The feminine showgoers were especially enthusiastic over the appearance and comfort conveniences found in the new Chevrolet.

"The powerful engine with its 32 per cent increased horsepower, the product of four years intensive development by Chevrolet and General Motors, was one of the most popular exhibits at the showing. Crowds milled about the engine all day long, and were especially interested in learning that, although it develops more horsepower than its four cylinder predecessor, it can be operated with a fuel economy averaging better than 20 miles to the gallon.

"Wm. Ruehl said that he will have the new models on display in his show rooms January 1, when deliveries are scheduled to begin. Fifteen Chevrolet factories throughout the country are now pushing production with all the speed possible within the limits of precision manufacturing," Wm. Ruehl said.

## POST MASTER WARNS SENDERS OF CARDS

### All Who Use Mails for Christmas Asked to Write Return Addresses

Postmaster Hugo Schneider yesterday issued a general warning to all senders of Christmas cards and packages urging them to be sure that addresses are correctly and plainly written and that all articles be marked with the return address of the sender.

"In January every year," Mr. Schneider said, the dead-letter service receives between three and four million dead letters containing Christmas and New Year cards, in addition to the normal receipts of ordinary undeliverable letters.

"This enormous increase in undeliverable matter is due primarily to the incorrect address, but would still be preventable in spite of incorrect addressing if the patrons of the service could be persuaded to place their return addresses on the envelopes contrary to the widespread custom of mailing greeting cards in noncard envelopes.

"The loss thus sustained each year by the mailing public is enormous, amounting to not less than \$325,000 in cash outlay, not to mention the disappointment of hundreds of thou-

sands of persons who fail to receive the anticipated greetings, leading no doubt in many cases to misunderstandings and estrangements, since in the absence of a return on the envelope the letter can be returned and the mailer therefore is unaware that his or her message was not delivered. Thousands of these are found to contain gifts of money when opened in the dead-letter office, and comparatively few contain sufficient information to enable their return to the mailers.

## USE OF INDUSTRIAL VARIED, IMPORTANT

### VERY VALUABLE PRODUCT

### Chemists Class It High Among Useful Substances; Some of Ways It Is Utilized in Industry

Alcohol from the chemists point of view is one of the most important substances made. It owes its origin to the fact that the little, single-cell yeast plants fight their enemies by turning sugar into alcohol and carbon dioxide. The yeast cell itself can not stand more than 15 per cent alcohol, but its rivals fade away long before this concentration is reached, at least they become so stupefied that they do not count.

Doctor R. E. Rose, a chemist who has specialized in creating American dyes, says that a liquor containing one million times one million times on million times 16,000 molecules of alcohol in one teaspoonful would be legal.

Alcohol is industrially of immense importance for two reasons: first, that it is the most important solvent next water, and dissolves a great many materials that water leaves untouched; and second, that it is the starting point for a perfect army of substances that are indispensable to the average human being, not always directly it is true.

In making lacquers from nitro cellulose, lacquers that have become so tremendously important to the automobile and furniture trade, as well as to the trade in novelties and the like, alcohol is an essential because it can be converted into ethyl acetate, and ethyl acetate and ethyl butyrate are very good solvents for nitro cellulose.

The most widely used of all anesthetics that has been responsible for doing away with an infinity of pain and make it possible for the surgeon to save many lives, as ether is made directly from alcohol.

Ethylene, the gas that is used now to hasten the ripening of lemons, bananas, and the like, is also made from alcohol.

Some of the most beautiful dyes-stuffs are made partially from alcohol, and others are made by using alcohol in the process of manufacture.

## SMALL CHILD DIES FOLLOWING PNEUMONIA

Marion Francis Packitt, three year old son of Mr. and Mrs. M. F. Packitt, passed away yesterday afternoon at the home of his parents, 260 Woodland avenue, following a brief illness of pneumonia. Funeral services (private) will be held tomorrow afternoon at one-thirty o'clock from the family residence, with interment in Acacia Park cemetery.
