URGES GOOD WILL IN FOREIGN RELATIONS

LEARN NOT TO EXPLOIT

Advice of Professor Regarding Best Way to Establish Better Feeling Among U.S. Neighbors

American publicists have been tempted to follow the easy promptings of diplomatic alchemy in international relations rather than the more profitable principles of international good will, Dr. Isaac J. Cox, professor of history at Northwestern university, told the Foreign Policy association of Cincinnati recently. Dr. Cox spoke on "Modern Alchemy and Inter-American Problems."

"The alchemist of old was either self-deceived," said Dr. Cox, "or consciously deceived his fellows. In time the chemist, a real scientist, replaced him. In a similar manner the unfruitful experiments of the past in Pan-American relations must abandoned for a productive program of good fellowship.

Influence of Education

"We must bring education to bear on the local needs of those countries and accept the principle of equal opportunity for their people in industrial life as well as in social and political features. America must stand ready to offer aid but not to force it. In this way, through patient effort, we may hope to transform the baser elements of inter-American procedure into the true gold of universal good will."

The exploiter of today finds the tin of Bolivia more profitable than the silver of a former age while the copper of Peru affords him more substantial returns than the gold of the colonial period, Dr. Cox said.

Economic Imperialism Economic imperialism, Dr. Cox believes, replaces the magic formulae of earlier alchemy and furthers intricate relations with governments and peoples of less favored lands. The major portion of the profits remain with the exploiter and when the commodity that attracted his attention is exhausted little is left for those natives who must continue to live in the despoiled areas.

10,000 AIRPLANES ARE REGISTERED IN THE U.S.

Report of Department of Commerce Shows As of Nov. 1 Statistics

Registration of the 10,000th airplane was reported on November 1 by the Department of Commerce. A comparison of airplane registrations with automobile registrations shows that the automobile was seven years old before it passed the ten thousand mark in registrations, according to statistics compiled by the American Motorists' asociation, in co-operation with The Automobile Club of Illinois. In 1895 there were four passenger cars registered; in 1896, 16; in 1897, 90; in 1898, 800; in 1899, 3,200; in 1900, 8,000 and in 1901, Registration of trucks did not pass the ten thousand mark until 1910, or 16 years after the first automobile was produced in this country.

NEW STYLE BIRD CAGE AIDS IN DECORATION

And Singing Canaries More Used

Bird cages in bright attractive colors are now being used by decorators for the purpose of enlivening many rooms which otherwise would be lacking the proper color emphasis. There are many rooms which may be arranged quite tastefully in so far as the type and location of furniture and other pieces are concerned but which lack one thing, namely, a color spot which tends to brighten the whole apartment. Modern decorators are insisting on a bright color piece in an otherwise dull room as being essential to proper furnishing be cause of the way such an effect gives a touch of brilliancy and contrast. In some cases this brilliant color note has been struck by a writing desk, a chair, a console or some other sin-

The new development in bird cages has been that, instead of being made metal, they are now being made of pyralin which is a plastic capable of taking the most brilliant and truest colors and which also has a warm soft effect which could not be obtained with the old style bird cages. The introduction of this new type of bird cage and the increasing use of birds brilliant bird cages as an element in and \$1926, \$219. modern interior decoration.

For Scarred Brown Shoes When toes of brown shoes become scuffed or worn, paint them with brown iodine, then polish as usual.

COST OF OPERATING CAR IS TEN CENTS PER MILE

That Is the Average, According to Figures Given Out By Motor Club

The cost of operating the average automobile is ten cents per mile, according to the Chicago Motor club, which reports the results of a nationwide survey on the subject made by the American Automobile association.

The A. A. A. figures show that while the range of operation costs is from 7.05 cents per mile for a light coach, the average is ten cents per Other increases shown in the first done much to lower the operating and shoes 55; tobacco 4.2. costs, it is stated.

The automobile association figures show that the average motorist spent \$229 in 1927 for operation and maintenance, excluding depreciation and garaging charges. This was divided into four principal items as follows: Replacements and supplies, \$41; tires for replacement, \$40; fuels and lubricants, \$101, and labor, \$47.

The association points out that the average cost of operation for 1927 was considerably lower than for 1919, when the average cost was \$281. Averages for other years were in homes has lead to the use of such 1921, \$221; 1923, \$222; 1925, \$217,

STATISTICS SHOW HOW PEOPLE SPEND MONEY

Gains in Profits for Auto, Food Apparel; Shoe Businesses; Others Show Loss

The semi-annual profits of some of the leading industries of the country furnish food for thought for those who are inclined to believe that the world cares more for its pleasures than for the practical things of life. These figures of profit show that net returns from amusements were more than 18 per cent greater four-cylinder touring car to 11.78 in the first six months of 1928 than cents per mile for a light six-cylinder during the same period last year. mile. Improvement in car design, half of 1928 were: Automobiles and development of good roads and stand- trucks, 22.6 per cent; auto accessorardization of motoring services have ies 35.8; food products, 12.8; leather

Profits dropped off during the same period in a number of national industries, among them: apparel, 21; building materials 16; coal, 41.6; lumber and furniture, 38.9.

Figure that out and you may discover "where we are at," and whither are we heading for.

To Protect Left-Over Paint

To save paint remaining in an opened can, stir thoroughly to dissolve all the oil, then fill the can with water. When ready to use, pour off water and you'll find the paint as fresh as when first opened.

New Meat Loaf

Mix 2 lbs, hamburg steak, 2 slices salt pork diced and tried out to golden brown; 1 pint can tomatoes, 1/2 onion, chopped, 21/2 teaspoons salt, 1/4 tea-

spoon pepper, 10 tablespoons quick cooking tapioca. Bake in bread pan in moderate oven 45 minutes. The tapioca takes the place of eggs and bread crumbs as a binder and avoids the "bready" taste.

It's the Mate to Reo Flying Cloud the Master!

If you're the man who didn't quite want to pay Flying Cloud prices last year - step forward one pace and smile . . . We've added the Mate to Flying Cloud the Master—a size smaller in inches and price—but not in performance. You know what you're after balanced craftsmanship. A car that will do everything, as well as it ought to be done—a car for the experienced motorist who wants not only miles per hour and a good paint job, but

effortless power and solid comfort. Speed—more than you'll ever need—here it is. Absolute dependability—dirt roads or concrete. No hitting the top on jounces when you hit the pace on high. A wheel that steers with a finger. Quick pick-up—to get away before the mob. Internal hydraulic four-wheel brakes that grip instantly—without grabbing or slipping. A constitution that makes you look forward to hills. And your wife wants? ... More comfort inside - more room. A rear scat wider at the bottom to prevent crowding, wider still at shoulder height—no cramping on long runs. A front seat wider, too—so a third. passenger won't turn you into a crabby driver. Since squeaks set her wild, she wants bodywork welded instead of bolted or riveted ... And, of course, she wants beauty-clean line that spells speed from nose to spare. ______ No announcement could sell either of you a car, no matter what it said. This one is designed to make you go and look — and take a trial spin. Flying Cloud the Master has already proved itself. If the Mate is half the car we REO MOTOR CAR CO. . LANSING, MICHIGAN think it is, it will do its own selling.
