

# How's Your Credit?

*Are You Careful  
of Your Credit?*

*Are You Building  
it Stronger?*

Bank credit is one of the most valuable assets you can have. Guard it carefully and build it up. Careless use of credit leads to extravagance and disaster, but wise borrowing is an encouragement to thrift and industry. This bank does not like to loan money for speculation, but we are glad to extend credit to responsible folks who have a productive use for it.
