

# The Largest Plant on the North Shore brings its complete cleaning service to your very door

Just pick up your telephone and call Highland Park 3400. Almost before you realize it one of our efficient, courteous service men is at your door.

You may give him any article you wish cleaned or dyed with the assurance that it will be done well — and returned to you promptly. To say that we clean everything from a pair of gloves to the largest rug is no exaggeration. In fact we clean dresses, suits, overcoats, children's apparel, curtains, drapes, rugs, even your upholstered furniture, and when they are returned to you, you will agree that they are like new.

One enthusiastic Highland Park lady says, "I was truly delighted with the work you did for me. When I examined the articles they were so new and fluffy that I felt as if I had several additions to my wardrobe."

Our plant is a brand new one, and occupies its own modern, attractive daylight building. The machinery is the last word in cleaning plant equipment, and our people are thoroughly efficient and skilled craftsmen.

Our large fleet of pick-up and delivery trucks cover the entire Chicago North Shore every working day.
