#### New Commandant of Sixth Corps Arrives,

Maj. Gen. Frank Parker, newly-appointed commander of the Sixth Corps Area, has assumed command of Fort Sheridan, relieving Maj. Gen. Paul B. Malone, who will leave for a post in the Philippine Islands. General Parker arrived in Chicago last Thursday and immediately went to the fort.

Visibly pleased with the prospect of commanding Fort Sheridan and the Sixth Corps Area, General Parker became somewhat enthusiastic in an interview, according to Chicago press reports.

"If I had the pick of all the stations in the world I would have chosen this," General Parker declared, "I have always liked Chicago and I have many personal friends among its business men, several of them being what one might call intimate friends. I am looking forward with pleasure to the 'campaign' ahead.

The new commandant came to Fort Sheridan from Washington.

With him was Mrs. Parker. They were met at the Union station by Col. M. B. Stokes, chief of staff at Fort Sheridan; by Mrs. Stokes, and by Lieut. Eugene Steele, aid to Maj. Gen. Malone and representing him. In the big khaki colored army car, with its red flag with two stars flying, they were taken immediately to the fort.

The fear of water manifested by the small boy Saturday night, will all vanish with the opening of the swimming season.

Calvin Coolidge seems to be one man who can get along without hiring any publicity agent.

#### Injured Man Reported Improving; Both Legs

Still growing in strength and seemingly resting more comfortably, Attorney Clarence Brown, 27 years old, 329 North Genesee street, Waukegan, who suffered the loss of parts of both legs when he was thrown beneath a Northwestern train at the Lake Bluff station last week, was at last reports believed to be on the way to recovery today.

Only the possibility of infection remained as the one condition that might result in preventing an early recovery on the part of the young man.

Possessed of a good constitution and the ability to stand pain without great mental stress, he now has more

than an equal chance in his fight for life, it was said.

As an indication of his fortitude and the well balanced condition of his mind, he has been conscious most of the time since the time that he fell under the train while attempting to board it, with the exception of the several hours that he was under an anesthetic.

#### Made Defendants in \$30,000 Damage Suit

Mr. and Mrs. Edwin Olson, said to be Chicagoans, today filed damage suits aggregating \$30,000 in Circuit court against the Packard Motor Car company and K. C. Wettstone and Betty Wettstown, of High-

land Park. Suits, several weeks ago, had been filed in behalf of Victor Olson against the same defendants. While just the praecipes were filed, it is learned that the action dates back to an automobile accident.

Claimed that people should think more and talk less, but unfortunately thinking is harder work than talking.

It is claimed our remote ancestors had no chins, and if as a result there was no chin music, it must have been very comfortable then.

The agriculture department offers advice on how to make the hens lay, but anyway they are always willing to lay when prices are low.

# "I use Bowman's milk as my mother did before me"

MANY a present-day mother was "raised on Bowman's Milk" as the saying goes. And today their children are enjoying the same richness, freshness and purity which has made Bowman's Milk famous for quality.

Today, as in the long years past, Bowman's Milk is the outstanding favorite of those discriminating mothers who insist on the best. It is a milk that is full-rich in cream; as sweet, as fresh and as delicious as when taken from the cow.

Due to our extra care in bringing it from farm to your doorstep, you will find Bowman's Milk to be extra-good—a milk that is unmistakably superior in flavor. Try it and see. Phone our nearest distributing station or order from the courteous Bowman milkman who passes your door.
