day school; 11:00 a. m. — Morning
worship; 7:00 p. m.—Illustrated lec-
ture over the Book of Revelation.

Tuesday, April 16: 8:00 p. m. —
Prayer meeting.

Thursday, April 18: 8:00 p. m. —
The Luther league.

Friday, April 19: 8:00 p. m.—The
Women's Missionary society will be
entertained in church by Mrs. Nellie
Johnson.

Highland Park Methodist Church

North avenue at Laretta place
Frank Davidson Hopkins, minister

The notable event last week was
the dinner given by the Tri-Mu club
class of boys. They said they would
give the best dinner ever given in
the church and no one calls to mind
a better one, although the mothers
of the boys are the ones deserving
credit for this. The boys made a
thorough canvass for tickets so that
they would be sure of their profits
should the weather prove inclement,
but the night was favorable and the
tables more than filled. The boys
looked after the serving and "serv-
ice" was the password and everyone
congratulated the boys on their suc-
cess. The profits of the affair will
go to partitioning o a new class room
in the basement and improving the
kitchen so that may also serve as a
classroom.

The series of Lenten Sunday night
services held in Odd Fellows' hall
was very successful, although the
closing one was deprived of what
would have been a large attendance
by the heavy rain.

The Ladies' Aid will give a "Tea"
this Friday afternoon at the home of
Mrs. F. C. Evans, on Skokie avenue,
to which they invite all the women
of the church and congregation.
Many of the ladies will tell, "How I
earned my dollar," in a recent con-
test along this line.

The Women's Foreign Missionary
society held its monthly meeting at
the parsonage Tuesday afternoon of
this week, the guests of Mrs. E. S.
Jefferson. A bountiful "pot luck"
lunch was served, contributed by the
ladies, each bringing one item of the
menu. The pastor lead the devo-
tional service and the meeting was
presided over by the vice president,
Mrs. J. L. Miller. It was decided
to hold the annual "Thank Offering
Service" on Sunday morning, April
21, the speaker to be announced later.
There was a good attendance and
the meeting was a most enjoyable
one. Mrs. L. L. Webster led the
study.

Next Sunday morning the pastor
will take for his theme, "A Plea for
Hatred," and will show how it is well
at times to hate and how even the
Scriptures teach this. Come out and
bring a friend or two.

The "Onward" class of young mar-
ried people held its usual monthly
social meeting at the home of the
teacher, Wm. H. Holgate, on North
avenue, this week Thursday evening
and, as always, had a most enjoyable
time.

Missionary Society Meets

Mrs. Ambrose Montavon will en-
tertain the Women's Missionary so-
ciety of the Presbyterian church on
April 18th in the church parlors.
The subject of the lesson of the day
will be "Africa" and will be in charge
of Mrs. Chester Wool. The Negro
problem at home and in his native
country, will be studied. Keep the
date in mind and plan to be present.

**Time to Remove
Anti-Freeze Dope
From Car Radiator**

Motorists who fail to thoroughly
remove the anti-freeze solution from
their radiators after the danger of
freezing is past are inviting serious
motor trouble later in the summer,
according to a bulletin issued by the

mechanical first aid department of
the Chicago Motor club.

"This attitude of letting nature
take its course with reference to dis-
posing of the anti-freeze," the bul-
letin stated, "costs heavily in some
cases. It lays the car open to the
whole gamut of ills that follow over-
heating. This is especially true if
the anti-freeze is an alcohol solution
which will reduce the boiling point
to below that of the regular water
content normally carried in warmer
weather.

"If motorists would realize that
overheating is a prominent cause of
the severest engine troubles—scored
cylinders, piston seizure, bearing de-
struction, valve deterioration, and
the like—they would see to it that
the cooling system was kept con-
stantly up to par."

"Putting it in perfect condition at
this season of the year involves

first, draining the anti-freeze. After
this is done, the whole system should
be flushed out with a sal-soda solu-
tion which will remove the scale and
rust from the inside of the radiator
and water jackets. Then, a thorough
flushing with pure water should fol-
low to eliminate the soda solution
before the radiator is refilled with
clean water.

"Some forms of anti-freeze have
a destructive effect on hose connec-
tions by permitting them to shrink.
When they are expanded by the water
with which the cooling system is fill-
ed when warmer weather arrives,
they are likely to be found porous
and ill-fitting. If this occurs, the
hose connections should be re-
placed."

Apparently the most popular way
of taking a vacation down in Mexico,
is to start a revolution.
