Goodnow Estate Total
Is \$150,000; Others in
Probate Proceedings

George F. Goodnow, manager of the North Shore Gas company about 20 years ago, left an estate of \$150,000 which is to be divided between his two sons and his widow, it was shown last week before Probate Judge Martin C. Decker where the will was admitted to probate.

The deceased, after leaving Waukegan, took up his residence in Highland Park.

The estate was bequeathed to a son, Albert, and the Garard Trust company, in trust for the benefit of the widow and sons.

Other proceedings:

Elsie B. Harmon, Highland Park. Letters of administration issued to John H. Harmon. Bond of \$24,000. Heirship proved.

Henry J. Thayer, Highland Park. Final report approved. Estate closed.

Mary Dooley, Highland Park. Inventory approved.

Edward A. Smith, Highland Park. Appraisers appointed.

Mary Boomer Page, Highland Park. Final report approved, estate closed.

Wilma Miller, Lake Forest. Heirship proved.

Mary Ann Brady, Highwood. Letters of administration issued to Florence E. Baker. Bond of \$500. Heirship proved.

Daniel J. Brady, Highwood. Petition for probate of will filed and set for hearing May 20th. Dedimus ordered issued to take the testimony of witnesses to will.

Charles B. Powell, Highland Park. Final report approved and estate closed.

Alfred Marwede, Lake Forest. Inventory of estate approved.

Emma Moran, Lake Forest. Letters of administration issued to Michael Edward Moran, Bond of \$500, Heirship proved.

Fred Hoffman, Lake Bluff. Letters of administration issued to Andrew Hoffman. Bond of \$20,000. Heirship proved.

The manufacture of cement, from the mining of the constituent limestone and clay to the storing of the completed product, is illustrated by a large and elaborate model of a cement plant in the department of geology at Field Museum.

North Shore District
Starts Mosquito War

Warfare against mosquitoes habitating the North Shore Mosquito Abatement district was resumed last week after the winter's lull with a full force of 16 men taking up the extermination work, according to Arthur Stringer of Evanston, president of the district.

Marked curtailment of the abatement program will be necessary because of the delay in receipt of tax money, Mr. Stringer states. "We shall have to operate on borrowed money and will have only about half as much available as last year," he asserts.

One expense which the district will be able to do without is that of an engineer, since three of the trustees are themselves engineers, it is pointed out. They are Howard Phillips, F. L. Streed, a graduate of the University of Illinois in engineering, and Paul Hoffman. The same foreman and the same superintendent as were in charge during the beginning of the program last year are again directing the work.
