Following a short but impressive ceremony at New York, January 23, in which Mayor "Jimmie" Walker signed a good-will message to the Mayor of Los Angeles, the Goodrich Silver Fleet began a nation wide tour of a year's duration. The picture presented here was taken in front of the municipal auditorium in San Antonio, Texas, after the fleet had skirted the Atlantic coast, looped into Florida and followed the Gulf coast into Texas. The fleet traveled about 1,500 miles in Texas alone. To date it has covered about 10,000 miles. The tour is in the interest of tire performance demonstration.

## Ravinia Man's Neck Broken While Working

David Giacomelli, a resident of Ravinia and an employe of the Village of Glencoe, survived an unusual accident last week, when his neck was broken.

At the Highland Park hospital, his body was encased in a cast, and, it is said, he has excellent chances for recovering.

He was working on one of the Glencoe village trucks, which, it is presumed, in starting suddenly caused him to fall from the rear.

The physician summoned, ordered the injured man rushed to the hospital, where it was found he had suffered a fracture of the right side of the fifth and sixth cervical vertebrae.
