

PRINTED FROCKS

*Point a Colorful Way
To Springtime Chic*

The printed frock seems to convey, more than any other type, the true spirit of spring smartness. This season there are so many interesting versions of these frocks that it is a simple matter to choose the one best suited to individual tastes. There are frocks in the new polar prints, American prints, in small allover designs and in bolder floral patterns.

The values we are offering at this time are very out-of-the-ordinary and you will be astonished at the wonderful quality of silks used to fashion these frocks. The low prices suggest buying two or more.

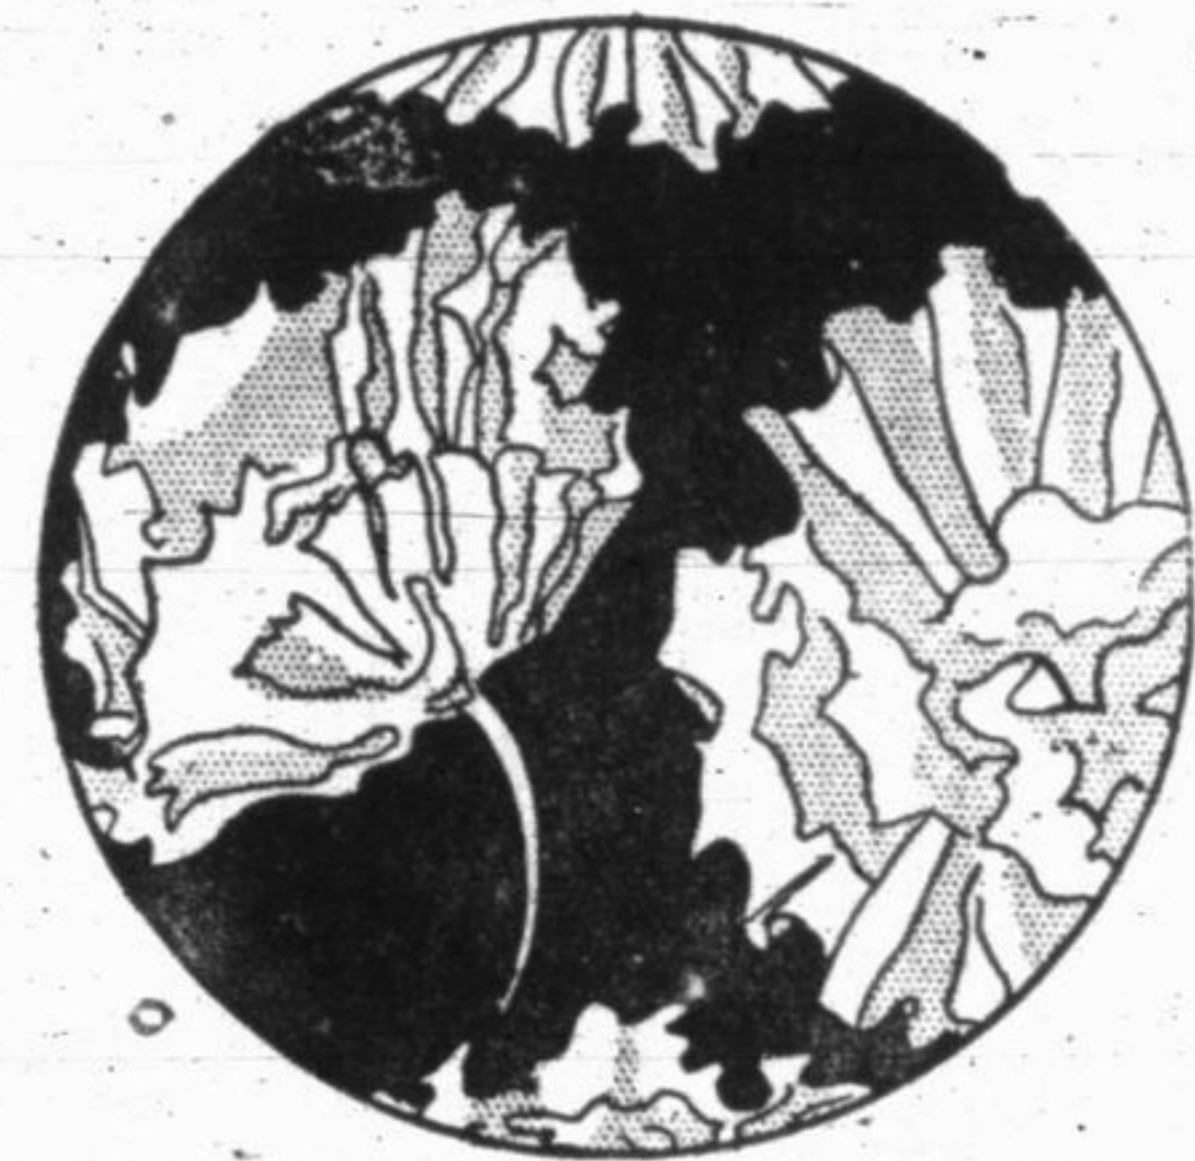

Specially Priced

\$9.95 and \$15.00
