

SYNOPSIS OF LECTURE ON CHRISTIAN SCIENCE

Given by John W. Doorly, C.S.B., Thursday Evening at Lake Forest

Mrs. Elizabeth D. Chase of Ravinia introduced the lecturer in the following words: Friends:

When the rich young man, mentioned in the Bible, asked the Master, "Good Master, what good thing shall I do, that I may have eternal life?" He asked a question which has echoed down the centuries and is found today in the thoughts and the prayers of us all. We long to be saved—some from sickness, some from sin, others from fear, grief, lack. We have known the Master's answer, "Keep the commandments." Like the young man, we feel we have done these things. What lack we yet? Christian Science has come to show us that what we lack is a correct understanding of God and His creation, and that from which we need to be saved is but our own wrong thinking. That we might lovingly share this freeing, healing truth, Mary Baker Eddy, the discoverer and founder of Christian Science, established the Christian Science Board of Lectureship of The Mother Church, The First Church of Christ Scientist, in Boston, Massachusetts.

We have with us this evening a members of this board, who will now address us. Friends, Mr. Doorly.

A synopsis of the lecture by John W. Doorly, C. S. B., member of the Board of Lectureship of The Mother Church, First Church of Christ, Scientist, of Boston, Mass., as delivered in Lake Forest last Thursday evening appears on page 24.
