FOREST

*Hot water on tap!
They'll say it's a snap
To have such a flood of
their call.*

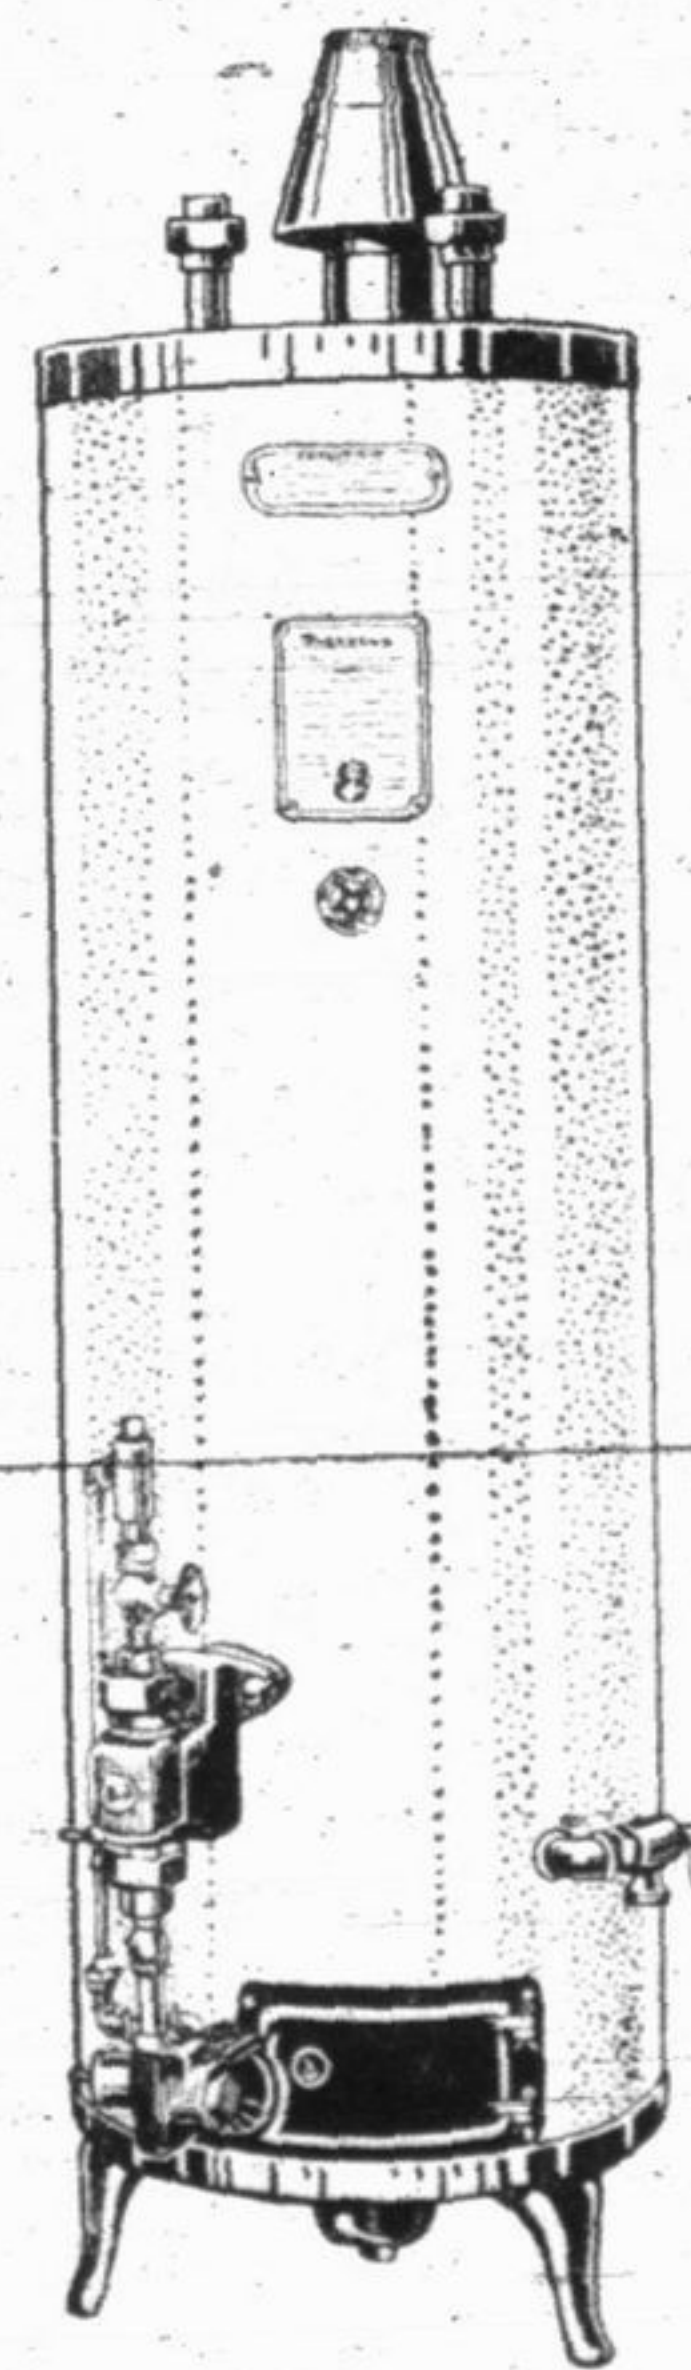

*There is no delay —
By night or by day;
With gallons of hot water
for all.*

For FATHER, MOTHER SISTER, BROTHER

Every member of the family will find keenest delight in having copious quantities of hot water for warm weather showers and baths. Hot water — lots of it — is essential for summer health and comfort. After a hot tub or shower you feel revived — “peppy;” and fatigue — which comes on you so often in the summer — vanishes.

Have a constant — abundant — instant supply of hot water in your home this summer. All the year 'round, in fact. The convenient, easy way to secure all the hot water you need, is to have an *Automatic Storage Gas Water Heater* in your home.

We can fill your requirements both as to size and price of heater. Come in or ask us to send a representative to tell you more about them.
