## Lake Forest Girl in Demonstration May 25

Miss Florence Schroeder, 616 Griffith road, Lake Forest, who is a student at the Chicago Normal School of Physical Education, 5026 Greenwood avenue, Chicago, will take part in the annual demonstration to be held May 25 in Chicago's well known Orchestra hall.

More than 150 girls will appear in this demonstration which is a popular, annual event in Chicago's professional circles. The numbers include a large variety; tumbling, pyramids, plastic gymnastics (Danish), apparatus, tap and soft shoe dancing with a striking finale of Greek, interpretative, and dances. There will be many interesting and appropriate costumes.

"Well my man," said the Irish doctor to his patient, "What's the matter with you?"

"Pains in my back, sir," replied the patient.

"I'll put you right," said the doctor, handing him a few pills. "Take one of these a quarter of an hour before you feel the pain coming on!"

# Hints for Motorists

If you happen to be driving a car with two-wheel brakes, remember that the newer automobiles with four-wheel brakes can stop more suddenly than you can. Keep your distance behind the car ahead.

Maybe, you've found out that it's not so easy to turn a wheel when the car is standing still.

If you don't believe that an under-inflated tire wears out sooner than one properly inflated, run several miles with one tire down and the opposite one at proper pressure. Then get out and feel the tires with your hand. The under-inflated one will be warm, while the other will be cool. The warmth is caused by the excessive flexing of the soft tire's walls, and excessive flexing means excessive wear.

If you want to signal suddenly to the man behind, that you are going to stop or turn, and the window by your side is closed against rain or cold, seize the handle of the door and open it a few inches. The man behind may think you are crazy, but he'll wait to see what you are going to do.

The "incher" who begins to creep forward as soon as he thinks the traffic lights are about to change from red to green is a nuisance to pedestrians and motorists alike, but the "sleeper" who is day-dreaming at the wheel when the lights do change and does not start when the change occurs is equally annoying. The good driver is always both considerate and alert.

Extra lamp bulbs in the car pocket may prove valuable. A headlight may go out at any time, and a one-eyed car on the road at night is dangerous. It may also prove expensive to the driver if the policeman who stops him is tired of listening to excuses.

## State Employment Bureau at Waukegan

Establishment of a state free labor employment bureau in Waukegan was regarded as assured last week when administration leaders permitted an amendment to the department of labor appropriation bill which includes the sum of \$14,430 for the location and maintenance of such a bureau in this city.

The action was taken following the filing of a bill in the state legislature by Representative Lee McDonough of Waukegan which asked for the establishment of the bureau here.

It is expected that the bureau will be located in Waukegan after July 1, although arrangements for opening the office will be made prior to that date.

## Senior Class of 1929 Is Deerfield's Biggest

With commencement day coming June 13, Miss Buzard has made a complete list of the seniors who will receive diplomas. The list is composed of one hundred seventy-six sen-

iors. Included in the list are the names of fourteen students who will complete the course in summer school, nine who finished in February, and two who are working with Mr. Sand-

wick's permission. All, however, will receive their diplomas in June. If anyone who expects to be graduated in June does not find his name on the list, he should report to the office immediately.
