

### Cricket Club Wins in Fast Game Last Sunday; Play Lake Forest Next

The Highland Park Cricket club won an impressive victory over the Chicago south side West-Indian Pickwick Cricket club last Sunday. The local club batted superbly, and declared with half its wickets intact, the score standing at 136 for five. The visitors were disposed of for 35 runs, the local bowlers being very effective.

Five of the six Highland Park batsmen reached double figures, the features being the splendid innings of Hoeking, who scored 35 not out, and the innings of Fred Hull, who made two sixes off the opposing bowling.

Complete score follows:

Highland Park (136 for five wickets)	
Hull, F; b Haywood	32
Williams, I; c; b Buckner	14
Hoeking, R; not out	35
Williams, T; b Haywood	3
Brown, J; b Mansanta	20
Greenless, J; c; b Thomas	25
Foster, A; did not bat	—
Sharpe, W; did not bat	—
Mitchell, R; did not bat	—
Newitt, P; did not bat	—
Southern, B; did not bat	—
Extras	7

Total for 5 wickets 136

Mansanta; c Sharpe; b Greenless	0
Burton; b Greenless	0
Buckner; b Foster	1
Phillips; lbw; b Greenless	3
Barthelmy; c Greenless; b Foster	1
Extras	1

Bowling		
	Runs	Wickets
Foster	20	4
Greenless	14	4

The local club will travel to Lake Forest on Sunday, June 30, to play the team from that village. On July 4th (Thursday) Highland Park will again play at Sunset Park, against the Lincoln Park Argyle club, and on the following Sunday will entertain the league champions, the International Cricket club (West Indians) of Chicago. Visitors are invited to both games, which begin at 2:30.

### Mosquito Remedies and Preventives

The Highland Park Public library has recently received Farmers' Bulletin No. 1570 published by the United States department of Agriculture on mosquito remedies and preventives.

The following formula is given as a protection from bites; "Spirits of camphor or pine oil rubbed upon the face and hands will help to keep mosquitoes away for a time, and this repellent action is also a well-known property of pennyroll. None of these substitutes are durable; that is to say, a single application will not last through the night. Oil of citronella is one of the best substances to be used in this way. The odor is objectionable to some people but not to many, and it is efficient in keeping away most mosquitoes for several hours."

Swamps, ponds, and marshes are not the only places which breed mosquitoes. A little rain water in an old tin can, an uncared-for sewer trap, or an undrained roof gutter, if neglected, will supply mosquitoes for a neighborhood.

This bulletin describes the measures, substances, and materials, both offensive and defensive, that have been found most effective against these diminutive but serious menaces to our comfort and health.

### Library Has Calls for Opera Stories

Music is having its innings this week with the books on opera and opera stories at the Highland Park public library. The library has been the gathering place of many former friends of the company who bespeak each season their pleasure in a small library with open shelves making books and magazines easily accessible.

Some seventy-five librettos are to be found in the summer exhibit of music books, together with every book of opera stories which can be found. In addition here are a few which will add interest to the opera season among residents of this city: "How to Listen to Music" by H. E.

Krehbiel. The pioneer work on musical appreciation.

"Appreciation of Music" by R. D. Welch. New statement of old facts.

"Common Sense of Music" by S. G. Spaeth. "When music and courtesy are better understood and appreciated, there will be no more war."

"Study of the History of Music" by Edward Dickinson. A useful textbook, telling simply, but completely, the story of the evolution of the art of music.

"Guide to Music" by D. G. Mason.

"The Opera" by R. A. Streatfield. A sketch of the development of the opera.

"Behind the Scenes at the Opera" by M. F. Watkins. Intimate revelations of back-stage musical life and work.

The United States Bureau of Standards attempts to standardize almost everything, but there is little likelihood that it will ever have the courage to tackle the waistline—Louisville Times.

#### NOTICE

Scaled bids will be received by the Council at its office in the City Hall, Highland Park, Illinois, at 7:30 o'clock P. M. Monday, July 15th, 1929, for the furnishing of all labor and materials required to complete the Terrace as shown on the plans and contained in specifications prepared by Frederick Hodgdon for the City Hall building, Highland Park, Illinois.

Plans and specifications may be secured either at the office of the City Clerk, City Hall, Highland Park, Illinois, or at the office of Frederick Hodgdon, 307 N. Michigan Avenue, Chicago, Illinois.

Each bid must be accompanied by a certified check made payable to the Mayor of the City of Highland Park for the sum of not less than ten (10) per cent of the aggregate of the proposal.

The Council reserves the right to reject any and all bids if they deem it best for the public good.

By order of the Council of the City of Highland Park, June 24, 1929.

V. C. MUSSER, City Clerk
