

HINTS FOR THE HOME

With summer days just ahead much thought will be given to the best way to protect summer foods. And more than usual interest seems to center around automatic refrigeration.

Small wonder—slaves to the ice-cream freezer that we are! Quite aside from the necessity of protect-

ing baby's milk and commonplace provisions—who could remain indifferent to the prospect of endless frozen dainties had without even a turn of the crank?

With the growth of automatic refrigeration have come many changes which bring it closer to the average household, the latest development perhaps being the combined stove and refrigerator, both of which are operated by gas at a low cost per month for refrigeration which makes this combination a real economy.

New home-makers just outfitting the home find the combined units

space and time-savers, and a great convenience. For established homes with perfectly good gas stoves, the refrigeration unit may be had separately.

A Special Luncheon

- Cream of celery soup
- Lamb chops Au gratin potatoes
- Tuna fish salad
- Muffins
- Strawberry Shortcake
- Iced Coffee

Pimento—Cheese Roast

Run 2 cupfuls of cooked lima beans, 1/2 pound cream cheese and 3 canned pimentos through a meat chopper. Mix thoroughly and add bread crumbs enough to make a stiff roll. Brown in oven, basting occasionally with butter and milk.

Water Lily Salad

Take hard-boiled eggs, cut the petals from the whites; mash the yolks and moisten with mayonnaise. Form centers of flowers with the yolks, lay on lettuce leaves and serve with pimento mayonnaise.

One of our cynical bachelor friends says that June may be the month when wedding bells ring, but it is to be remembered that it is also the month which brings the poison ivy.

One way to raise the price of wheat would be a national advertising campaign asking the housewives of the country to bake more biscuits like mother used to make.

Maybe one reason why there is a surplus of wheat is that the modern flapper doesn't go to the family flour barrel to get her complexion like mother used to do.

The bill which would have barred the counting of aliens in the census seems to have been beaten in Congress so that New York will continue to be the largest city in the country.

A scientist has invented a machine which will truly register one's hidden emotion. When the girls get one of those soft words and that heaving chest really means anything on a moonlight night in June.

Here is an agricultural thought for the day: If all those farmers who are accustomed to spend their time riding around in automobiles were to stay at home and raise wheat how much higher would the wheat surplus be?

The latest news from juvenile circles is that hoop rolling is coming back again, so that the pedestrians won't be safe even on the sidewalks.

Hint to June brides: One of our wise woman friends says that the only way to have an ideal husband is to keep crediting to him all the virtues you thought he had before you married him and pretty soon you will have yourself so fooled you will be almost as happy as you thought you would be.

THE ROAD OF UNUSUAL SERVICE

"Best VACATION WE EVER HAD"

So wrote one of last summer's Rocky Mountain vacationists who joined a Rock Island all-expense tour. Many have written similarly—enthusiastic over the trip and the unusual individual service enjoyed.

All expense Colorado Tours Lowest Cost Highest Class

Two weeks—as low as \$125.00—including every necessary item, an ascent of Pikes Peak and visits to many scenic "high spots" of both Colorado Springs and Denver Regions.

Other tour bargains, varied in plan and price to suit all patrons. Personally conducted or Independent—"Go as you please."

The only road operating separate direct lines and independent through service to both Denver and Colorado Springs—a great advantage in time and convenience to Colorado tourists.

Only \$43.05 Round Trip Rail-Fare from Chicago

ROCK ISLAND
