

HOT WATER QUICKLY -ECONOMICALLY with a GAS TANK HEATER

YOU can rely on a gas tank heater to provide dependable hot water service every day in the year. It will take the place of your inadequate "tea kettle supply" of hot water or other troublesome methods of water heating.

You can't imagine how convenient real hot water service is until you heat water with gas.

Come in now and see one of these heaters - or ask us to send a representative to give you further facts about them.

Special Offer During July Only!
