MAKE IT SAFE TO BE HUNGRY!

TODAY, leading medical authorities are constantly advising better care of food — earnestly urging you to adopt scientific refrigeration. For, they have discovered that perishable foods must be kept at a temperature *below 50 degrees always*. At higher temperatures harmful germs thrive and multiply at an alarming rate. Foods become unsafe. Many a fit of temper, many an illness can be truthfully blamed on food that has been improperly refrigerated.

For the sake of your family's health, for the sake of your own health, you should investigate the new *all-steel* General Electric Refrigerator. Automatically, without the slightest attention, this refrigerator keeps foods at a temperature safely below 50 degrees. It relieves you of every worry concerning the purity of the children's milk, the wholesomeness of meats and vegetables. It enables you to prepare and preserve the most delicious cold dishes and frozen desserts for warm summer days.

There are now more than 300,000 users of General Electric Refrigerators and not one has ever spent a single dollar for repairs. That was our guarantee, justified by the remarkable reliability of our refrigerator. Put the General Electric Refrigerator on the job in your home as guardian of your family's health. Visit our display rooms and examine this refrigerator.

Let us explain these 14 superiorities.
