## LEGION REPORT ON FLAG DAY MEETING

### Deerfield Post Representatives Tell of Session Held In Chicago

On Flag day, June 14, two representatives from Deerfield Unit 738, American Legion Auxiliary, attended the meeting of the National Defense Committee, held at the Hotel LaSalle under direction of Mrs. Florence Kellogg, national chairman.

Following is their report:

Mr. Busbee, Americanism chairman of the American Legion, was one of the many speakers who addressed the gathering. He explained the Americanism program, which is a two-fold one: first, a constructive program; and second, a program of combating organization which are opposing patriotism. He urged that to offset the harm being done by the Communists, every true American support the R.O.T.C., the C.M.T.C., the National Defense Act, and any program which will serve to instill in our children a desire to serve our country and pride in being an American. He also explained that the National Origins Immigration Law had to be established because the opportunities which this country offers to the people of the world are so great that they flock to our doors by the millions. No other country has had to bar its doors because no other country offers such marvelous opportunities. The least that can be done by these people who come to take advantage of these prospects is to follow the American flag one hundred per cent—become real Americans.

### Distributes Defense Magazine

Captain Patterson distributed copies of the National Defense magazine which presents facts concerning militarism and the American viewpoint.

The national Americanism chairman of the auxiliary told in a clear way the work which the Communists are attempting to do, in a series of abolishments — they would abolish property rights — the right of inheritance — all religion — (in fact, they now have an organization for children from 7 to 17 years of age, the members of which they call their "godless children") — abolish family relations and the sanctity of the home; and finally, abolish our government, our ideals and traditions. America has always been a friend of every nation; we do want to understand; we do want to co-operate; we do want peace — but — we must have every bit of loyalty and every bit of devotion to our country, to our flag, and to our laws.

### Communists at Round Lake

It is important for our local people to know that last summer the W.I.R. (Workers' International Relief, a communist organization) conducted a children's camp at Round Lake, Ill., located in a dense woods, and the "red" flag was flown over the camp. The children were taught to salute it and pledge their allegiance to the communist regime of the Soviets. It
