Former Mayor Suggests Subway Under St. Johns

Former Mayor F. P. Hawkins has sent the Press the following copy of a letter which he recently sent Mayor Benjamin F. Lewis regarding a subway extension beneath St. Johns avenue to the Northwestern station. Undoubtedly his suggestion will be given serious consideration by the city authorities in due time. Mr. Hawkins' letter to the Press and the copy of the one sent Mayor Lewis follow:

Highland Park, July 17
Highland Park Press
Gentlemen:

I enclose a copy of a letter I took the liberty to write to our mayor, simply for your information. The crossing at the station is very dangerous and some one is going to get killed there.

Truly yours,
F. P. Hawkins

Letter to Mayor Lewis
Highland Park, Ill.
July 1, 1929

To the Honorable
B. F. Lewis, Mayor
City of Highland Park.

Dear Sir:

Kindly permit me to call your attention to an idea for the safety and convenience of your fellow citizens in getting to and from the station of the Chicago Northwestern Railroad—simply this—That the present foot viaduct from the west side to the East entrance on St. Johns avenue be extended under the roadway to the East side of St. Johns avenue—of sufficient width to accommodate all our citizens wishing to take or leave the station. The present condition at train time is exceedingly humiliating and dangerous for us all.

This extension will not be very expensive and will save the lives of our fellow citizens. The present vehicular viaduct could also be extended to an entrance on the south side of Laurel avenue later.

Very truly yours,
F. P. Hawkins

SO. GREEN BAY ROAD IMPROVEMENT SOON

(Continued)

stacles so far have been surmounted, and that this much-needed and long-desired pavement will shortly be under way. Green Bay road is one of the chief through highways in Highland Park, and the bad condition of the pavement south and the narrowness of the roadway thereon have proved a serious handicap to traffic on that thoroughfare for a long time. It is a matter of gratification to the entire community that the improvement has at last reached a stage where its early completion may be expected.

Deserve Praise

Property owners along the section of roadway to be improved have rallied loyally to the aid of the city in getting this important project through and deserve their share of the credit, and the members of the Board of Local Improvements and other city officials who have worked long and zealously to secure this improvement merit high praise for their efforts.

When South Green Bay road is widened and paved it will afford another well-paved through route to Chicago, and with the improvement of Vernon avenue in Glencoe will greatly relieve the congestion of traffic on the principal highways through these north shore cities.

Good roads and wider roads are among the urgent necessities of this modern age, and especially in the vicinity of a large city, and the improvement of Green Bay road through Highland Park marks a notable improvement in this line for the north shore.

In connection with the Green Bay road improvement due credit also should be given to the Chamber of Commerce of Highland Park, a committee of which body has throughout co-operated enthusiastically with the city officials in helping to get the project through to successful conclusion.

Wireless communication is spreading rapidly, but no wireless politics is yet reported.
