Lessons Given in Your Home

Lake Forest Academy for Boys

Strictly college preparatory — definite preparation for entrance examinations of Yale, Princeton, Harvard, Mass. Tech., etc. — school is also on accredited and preferred list so that admission without examinations is granted by all universities which accept certificates — both boarding and day students; the departments for day students is of special interest to residents of the North Shore who desire thorough college preparation for their sons, and at the same time can have them remain at home; afternoon study hall supervision, physical training and athletics for day students same as for boarders. Your boy will be kept busy until late afternoon with class-room work, study, athletics and other activities which will develop him. Small classes — individual attention — a Master for every eleven boys — sanely progressive methods — for instance, we do not "hear" recitations.
