SWEET AND CLEAN

watch and wait for our new and fascinating story starting August first

INSTRUCTIONS FOR USING MAGIC CIRCLE: Cut out circle, lay on sheet of plain paper with carbon paper between, fasten to table with pin through center spot. Mark short perpendicular line on plain paper close to bottom edge of circle as starting point. Turn circle around until No. 1 is at starting point, then trace over line marked No. 1 inside the circle. Turn circle around to No. 2 at starting point line line No. 2 inside circle and so on.

"I want a Radio that I can depend on—one that looks good, sounds good and does not cost too much money." This is the kind of order we like because we can fill it.

WINGLESS HENS. EAT MEAT. WE ARE CANDY EATERS.

This is real news. Dr. Renwald, poultry expert in Nebraska, says he has produced a breed of wingless hens that also lack toenails.

They lay, but can't fly, can't scratch, can't be ardently interested in motherhood, having no wings to shelter a brood.

Such hens, being saved the trouble of moulting the difficult wing feathers, should go on laying all year round producing 300 eggs a year.

To separate female usefulness from psychological disturbances like moulting would be marvelous, in poultry, and among the primates.

The Arctic explorer, Stefanson, and a companion, Anderson, have lived for a year on nothing but meat, eating enormous quantities.

Physicians say their health is better, their resistance to disease strengthened.

Let vegetarians muse on that.

The rock in 1,000 million years produces soil, with the aid of earth worms.

The soil, after more centuries, produces grass. The cow eats grass for three years, digesting it slowly. Man eats the beefsteak in fifteen minutes.

Great labor-saving device. Give your children meat.

President Hoover, great engineer, has been kept busy since his inauguration by prohibition problems.

Now he is asked to develop and enforce new blue laws. The blue law gentlemen want Washington made into a "Blue-Laws Paradise," that the city may be an example to the nation.

Poor President Hoover, listening to six speeches in favor of Sunday blue laws, all in one day, must wonder when the country will allow him to do some engineering.

After all, preventing Sunday golf in the District of Columbia is NOT as important as the Boulder Dam or flood control.

In the last six months Americans have eaten more than six and a half billion pounds of sugar. Prohibition helps that. More candy is sold.

The country this year will use thirteen billion pounds of sugar. If the tariff increase costs but two cents a pound, that will cost the public \$260,000,000.

The city of Colby, Kansas, again votes not to tax anybody or property, real or personal, in the city.

Colby owns its power, light and water plant. Profits, which go to the city, make taxes unnecessary.

In fact, because of surplus profits, the water rate is reduced 25 cents this year.

NEW ARTISTRY IN RADIATOR CONCEALMENT FOR CHICAGO

FAME WILL TRAVEL!

Because Tuttle & Bailey Furniture for Radiator has won unquestioned prestige among the most discriminating New Yorkers and Chicagoans, the demand grows fast.

In fact, Chicago has become insistent. We have opened our Chicago Office to better serve our clientele there.

Tuttle & Bailey Furniture for Radiators conceal the radiator

and scientifically distribute heat. But, apparently, these virtues are only incidentals. Primarily they seem to be another addition to the lovely furniture of a room.

Their finish and designs are adaptable to all decorating conditions, and into their making has gone 83 years experience in heating and ventilating.

The coupon below will bring you a booklet showing the many styles of cabinets available, or call Wabash 8282.

TUTTLE & BAILEY MFG CO.

Established 1846

441 Lexington Avenue New York City

CHICAGO OFFICE 407 S. DEARBORN ST.

Tuttle & Bailey Mfg. Co., HPP-719 407 So. Dearborn Street, Chicago, Ill.

Sirs: Please send me information concerning Tuttle & Bailey Furniture for Radiators.
