

# HINTS FOR THE HOME

It is no longer sufficient merely to place on the dressing table a "set" of toilet ware. To be smart, one must have mirror, brush, comb and cream jars that complement the decorative scheme.

Created by foremost modern artists, period and modern designs in most exquisite colors have made their appearance. For the room of 18th Century influence there is a charming Watteau design, done in burgundy and cream in the toile du Juoy manner. Another and more formal pattern follows the classic lines of Napoleon's day; a third adapts the lines of modern art to the Wedgwood motif which has been a favorite for centuries.

When planning improvements in home-furnishings for fall it is well to remember this fashion trend which so definitely stamps the toilet table as to date.

# In Days of Old

HEAVILY-ARMED guards kept vigil before the doors of sleeping rooms, while those within slept fitfully, their repose disturbed by thoughts of fire, sudden illness, prowling marauders and other perils of the night.

Today the dangers may remain but the guard has changed. The telephone is

the modern watchman of the home. With a telephone extension at the bedside, aid in any emergency may be summoned in a moment.

You'll be pleased with the sense of comfort and security given by this added Telephone Convenience. The cost of extension service is small.
