

Keep Your Slate Clean

ESTABLISHING a credit standing at our bank is an easy matter for any of our customers. It is simply a matter of carrying a sizeable balance to your credit and meeting your note when due.

Some men however are careless and give a check when they haven't the funds on deposit to meet it. This causes a lot of unnecessary work in the bank, causes confusion and sometimes embarrassment to the man who received the check, and ruins one's "credit standing." Don't do it. Keep your slate clean.
