The mathematics department will have Miss MacMartin, Mr. Nelson, Miss Mills, Mr. Wolters, and Mr. Wright with Miss Weldin added from Miss Wheeler's school in Providence, Rhode Island.

The department of history and social science remains as last year with Messrs Slocum, Burwell, and Eiker and Misses Lauderdale and Perry.

The Latin department will have three men teachers, Mr. Platt, Mr. Reynolds, and a new teacher from Dartmouth, Mr. Thurston, recently of the Melrose high school, Melrose, Massachusetts.

In the French department are two new teachers, Mrs. Bocquin from the Lincoln school, New York City; and Miss Brooks only remain of the former group. Spanish will be taught as heretofore by Miss Linda Rodenbeck.

The science department remains the same except that Mr. Ball secures an assistant in chemistry—Mr. Floyd. Mr. Einbecker, Mr. McNutt and Miss Whiteman are the other teachers of science.

Vocational Work

In the vocational and manual training work there are no changes. The teachers will be Messrs. Schneider, Pertz, Bole, Durbahn, Davitt, and Miss Beckmire, Mr. Bolle will also have charge of the school band. Misses Burwash and Campbell will share the work in domestic science as heretofore.

In comereial subjects Messrs. Zipoy and Barnes and Misses Fitzsimmons and Knox will be the teachers, Miss Ellen Knox of Lake Forest, taking Mrs. Sanborn's classes.

Mr. Peel and Mr. Kendig will continue to take the brunt of the work in boys physical education with Mr. Eiker, Mr. Floyd, Mr. Wolters, and Mr. Thurston assisting.

Art Department

Miss Wood is to be back in charge of the art department. Miss Phelps now Mrs. William Baker, who was assistant, will have as her successor Miss Margaret Kerfoot of St. Paul, Minn.

New Department Head

A new head of girls physical education comes from the faculty of the University of Minnesota to replace Miss Parry recently married. The new head is Miss Pauline Lane who received her training in a five year course at Wellesley college. It is seldom that Wellesley trained in-

structors of physical education are found in high school work since they are in demand among the universities. Deerfield-Shields is especially fortunate since Miss Lane is not only well trained, but also a young woman of ability, enthusiasm, and fine personality. Miss King and Miss Thompson will assist Miss Lane. Miss Thompson comes from a girls' school in Pittsburgh, Pennsylvania. Miss Wilson remains as dean of girls, Miss Buzard as assistant to the principal, Miss Lasswell as school nurse,

Mrs. Reichelt as visiting teacher, and Mr. Richardson in charge of research.
