Oil Heat Comfort

The McIlvaine method of home heating offers you unvarying automatic oil heat. Thermostatic control automatically governs the flow of both oil and air, gradually increasing or diminishing the flame as the temperature requires and maintaining an even heat in every room. Your house is not alternately overheated and chilled, because the McIlvaine flame is not turned on and off, or high and low. The flame is automatically adjusted to a size that will maintain an even temperature at all times with remarkably low oil consumption.

Let us give you a convincing demonstration of the greater dependability, simplicity and fuel economy of the McIlvaine Oil Burner. If you cannot call—write now for our descriptive circulars which give detailed information about the McIlvaine. But—by all means—SEE the McIlvaine—before you make your final selection of an oil burner. It will pay you to do so. Special demonstration arranged by telephone.

Aged Wauconda Woman Killed in Auto Crash

Miss Mary Hall, 78 years old, of Route 1 near Wauconda, was killed instantly Friday night and Roy Blue, a relative who makes his home with her was seriously injured when the car in which they were riding plunged into a ditch as they were traveling down hill at a fast rate of speed.

Mrs. Blue, who was also in the car, was slightly injured.

The three were riding down a little used side road about two and one-half miles west of Lake Zurich, somewhat north of Barrington, when Blue, who was driving, lost control of the car as they were going down hill. The car plunged into a ditch and when a farmer living near by reached the scene of the accident, Miss Hall was dead and Blue was unconscious.
