

Lake Forest Academy for Boys

Strictly college preparatory—definite preparation for entrance examinations of Yale, Princeton, Harvard, Mass. Tech., etc.—school is also on accredited and preferred list so that admission without examinations is granted by all universities which accept certificates—both boarding and day students; the departments for day students is of special interest to residents of the North Shore who desire thorough college preparation for their sons, and at the same time can have them remain at home; afternoon study hall supervision, physical training and athletics for day students same as for boarders. Your boy will be kept busy until late afternoon with class-room work, study, athletics and other activities which will develop him. Small classes—individual attention—a Master for every eleven boys—sanely progressive methods—for instance, we do not “hear” recitations.

SPEND A DAY SAFEGUARDING
THE WORK OF A LIFETIME

PROCRASTINATION

means “putting off till the future.” This very human failing is very prevalent among men who have not made their Wills. Men thoughtful of their families’ welfare guard against accident. Plan your Will today; discuss your problems with our Trust Officer; then have your attorney draw it in proper legal form.

If you do not make your Will, your estate will be distributed according to the law of the state, without regard to your wishes or any special needs of your family. . . . If you do not name an Executor and Trustee, your estate will be settled by the court through an Administrator appointed to take the place of the executor you should name. There will be no Trustee to safeguard the financial future of your loved ones, if you make no Will. . . . Because your Will is a legal instrument, your attorney should

draw it. Because your Will expresses your wishes and instructions, you should talk it over with our Trust Officer to learn of the modern methods of estate management now available to you. Great progress has been made in the last few years, not the least of which is the development of modern, corporate trust service. . . . Protecting the future of your family is a most important matter. Action should not be delayed. Our Trust Officer is at your service—in your office or ours.
