Pay**

A modern, heat controlled gas range is the heart of a woman's kitchen. Hundreds of times a year it cooks delicious, tempting meals. Meats---pastries---all foods taste better when they have been cooked in an oven where the heat is "measured." A modern gas range gives you many hours of leisure because you do not have to stay in the kitchen and watch the oven. The heat regulator tends to it for you.

For supreme cooking convenience and pleasure--- have an *Oven Heat Regulated Gas Range* in your kitchen.

Make it a point to come in or telephone us this month. Do it NOW--- and take advantage of this special offer!
