PLANS UNDER WAY FOR CENSUS TAKING

Decennial Tabulation of Population of U. S. Greatest Undertaking

Machinery for the census tabulation next spring, which is to be the greatest ever undertaken in the history of the nation, is said by census bureau officials at Washington to be virtually complete.

An army of 100,000 persons will be mobilized to enumerate statistics on four phases of American life — population, unemployment, farms and trade distribution. They will be under the direction of 573 supervisors and will start on April 1, 1930, their census taking, which is the 15th decennial enumeration of the nation.

New Questions Added

The census will be more difficult to compile than previous ones, because trade distribution and unemployment will be embodied with the usual population compilation. In the past, also, farms have been enumerated in separate censuses. Another phase of the population as it effects the distribution of seats in the house of representatives among the states.

The enumerators must have the ability to be clever questioners, according to Dr. Joseph A. Hill, assistant to the bureau's directors. To gain information about the population they will be commissioned to ask each individual—man, woman or child—a total of 30 questions, and a dozen more queries of each unemployed person.

Farmer Quiz Longer

For the farm enumeration they will have to ask 350 questions of each farm owner, seeking information about the value and production of the farms, the number of live stock and the varieties of crops. The distribution census will embrace wholesale and retail sales of each commodity with the objectives of obtaining the statistics on the values and quality of the sales.

The nation's population is expected by the bureau to be about 123,000,000 in 1930.

Sightseeing Planes Have Changed Routes

Sightseeing airplanes from Sky Harbor which have been flying over Winnetka and are the source of numerous complaints by residents of the village are to be re-routed so that they will not pass over Winnetka, according to a letter received by Village President William B. Moulton from officials of the airport, says the Winnetka Talk.

The letter, which was read at the meeting of the Village council Tuesday night, was in response to Pres. Moulton's request that the planes be re-routed. The Sky Harbor officials expressed a desire to co-operate with the village in every way.

The Winnetka council has been investigating various legal questions involved in the matter of the regulation of aviation. Many new points of law relative to the power of municipalities are arising, it is said.
