HATS

*Of Every Type
Agree to Show
The Countenance*

This is a frank and open season — hats sweep back from the face — flare at the sides and down at the back. A silhouette that is quite generally welcome because it is so universally becoming.

**A Complete
and Varied
Collection**

FALL

*For All Activities
Presents Hats*

Sports hats for spectator and participant emphasize the smartness of felt — agreeing on brims that flare at the side and shallow crowns. Hats for more formal occasions may also be had in felt, with equal emphasis on the smartness of soleil, and velvet. Colors follow the rich tones of autumn — green, red, bright navy and many tones of brown.

Fine quality

Chiffon Hose in new autumn tones

With the vogue for simplicity in accessories, hosiery with the square or French heel is smart. Very sheer and fine our number 597 chiffon is shown in all the new Autumn shades. Included are:

CHOCOLATE—A very dark, rich brown that promises to prove a favorite for both evening and afternoon wear.

ALMORA—Reflecting further harmony between hosiery and shoes is a smart medium brown called Almora. This shade is suggested to accompany shoes of Sierra brown or Prado brown.

AFTERNOON—For the more formal type of ensemble for tea or bridge. Afternoon suggests itself as a smart hosiery tone. This deeper, more restrained nude shade has a subtle mauvish undertone and is particularly adapted for wear with Chianti red shoes and a costume in the same range of rich dark red.

CRYSTAL BEIGE—An extremely subtle new tint of the sandy type is called Crystal Beige because it suggests the frosted overtone so characteristic of the beautiful crystal of Lalique.

DUSKEE—A fashionable darker shade in the rose taupe family is Duskee. These last two colors are suitable for wear with the darker blue ensemble and blue shoes.
