

Remarkable Success of New Evanston Industry

When the United States patent office issued a patent to John H. McIlvaine for an entirely new principle in oil burner construction, it marked an era in the industry.

The success of Mr. McIlvaine, since that time has been noteworthy, and it is especially interesting to Evanston because he selected that city as the ideal place in which to locate his manufacturing plant.

The McIlvaine plant in Evanston affords the McIlvaine Burner cor-

poration ample manufacturing facilities, and enables them to make installations by competent heating engineers in Chicago and on the north shore, and to service McIlvaine oil burner promptly and efficiently.

The construction and operation of the McIlvaine oil burner are distinctly different from other types of oil burners, and the success of the McIlvaine has been very gratifying. Hundreds of installations have been made, many of them in the finest homes along the north shore, which are giving entire satisfaction, and are remarkably economical in fuel consumption.

The McIlvaine Burner corporation contemplates building a new assembly plant in Evanston in the near future, to meet the demands of its rapidly growing business, and there is every indication that it will develop into a large industry, of which Evanston may well be proud, and which will give employment to a large number of people.

Install Safety Patrol at Highwood Schools

Installation of safety patrols has been effected at the Oak Terrace school and the St. James' Catholic

school at Highwood. This is part of the country-wide school boys safety patrol system, which originated in Chicago in 1920 and has spread to 500 cities and towns in the United States. A great many lives have been saved by these patrols, it is declared, and many accidents averted.

L. J. Schuler, a representative of the Chicago Motor club, which is promoting the installation of these patrols addressed the Oak Terrace P. T. A. last Thursday on the subject, "Responsibility of Parents in Safety Education Work."

Manhattan Shirts

*In a Presentation of
Fall Styles*

EVERYTHING that Fashion has dictated for Fall is in this inviting display. "Manhattan" has long stood for the ultimate in Shirt quality and Shirt smartness. With collar attached, collar to match, and variations of fancy bosoms, your every idea has been anticipated.

\$2 to \$10
